Prologue

To grasp the truth that countless flirting stars
Which we see are just the mere beginning
Of endless, timeless space, we're forced to grope
For understanding. The capacity
To fully comprehend infinity
Is found alone within the Mind of God.

Our scope of understanding narrows to
Our earth, our country, our state, but yet,
The world we really know is just Our Town.

Linda -
Well ANuther year goes bye AN Next year well ALL be Seniors. Its been FUN in English Trying TO LiveN UP the PLACE. Well HAVE FUN This summer See yAh Next year.

This book is called the **Orange and White.** In it you will see the lives of 1800 people . . . high school students . . . 1965-1966 in our town.

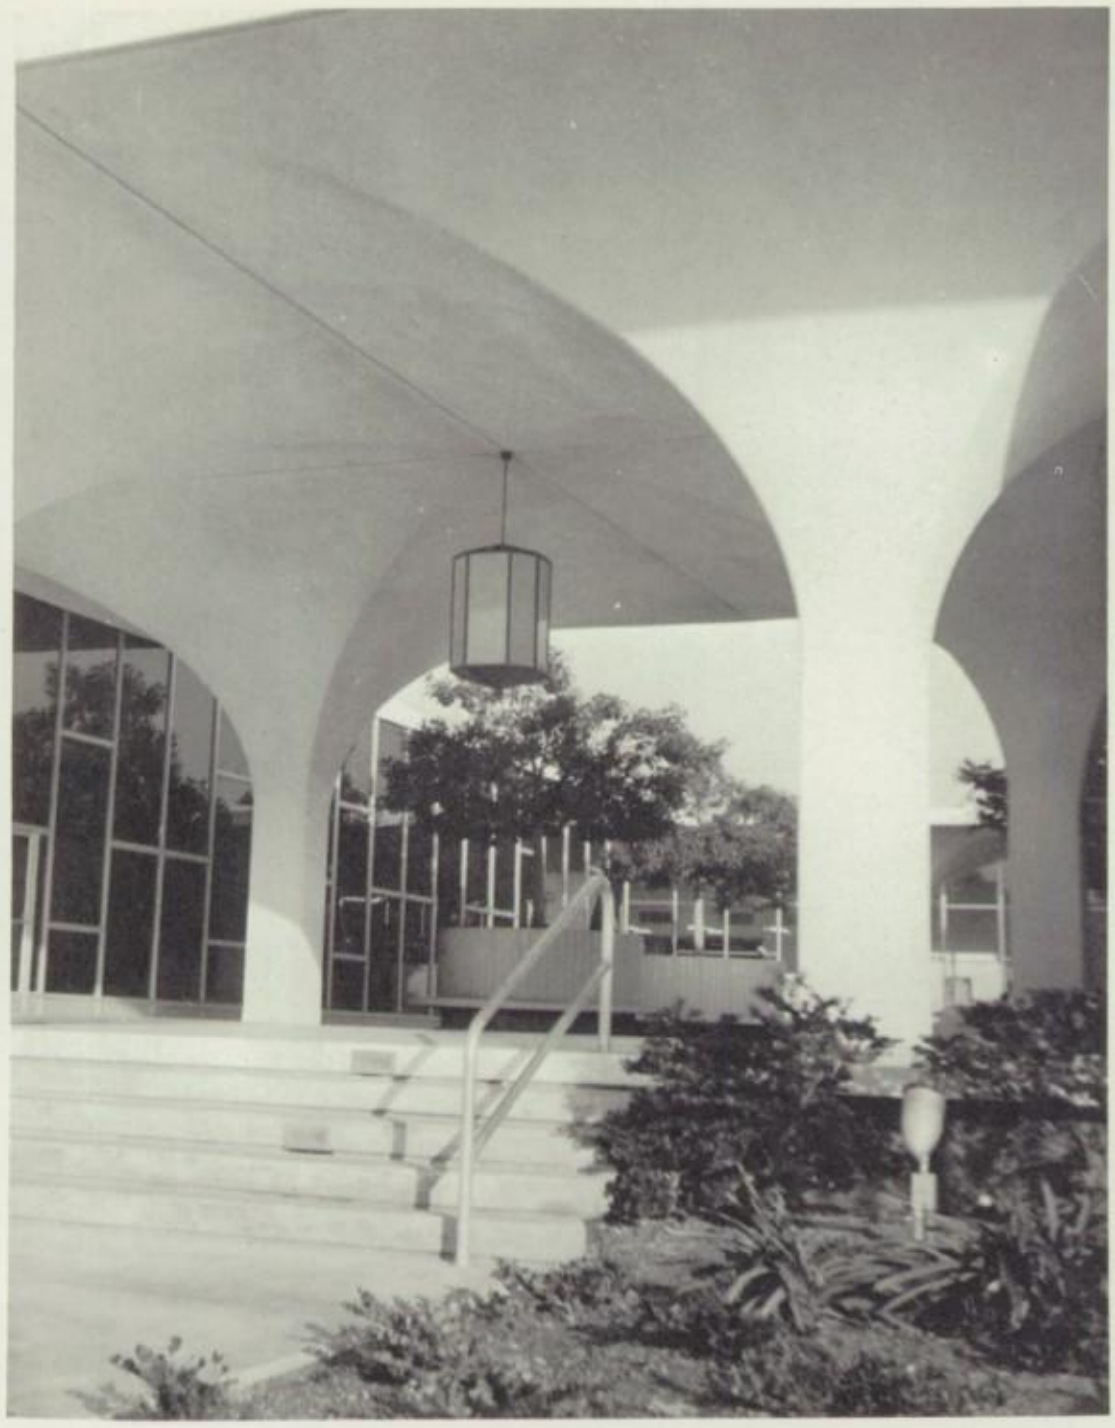
The name of our town is Orange, California. Population: 70,000. Area: 15 square miles. It's located 32 miles southeast of Los Angeles . . . 14 miles from the Pacific Ocean. Right in the center of Orange County.

As a part of the Rancho de Santiago de Santa Ana, a Spanish land grant, the land was cultivated for orange groves. Andrew Glassell and A. B. Chapman came around in 1870 and laid out the town. Orange, California. Incorporated April 6, 1888.

A lot of changes since those days. People moved in from Iowa and New York and Illinois and all over. Groves were cut down. And houses put up. The people haven't changed so much, though.

We still enjoy the fragrance of orange blossoms — if we can find a grove. We still like to admire the colored lights in the Plaza around Christmas time. We still like to follow the activities of the school . . . and watch young lives develop.

Above: This is the way it used to be . . . quiet groves, fragrant blossoms. **Lower Left:** Chapman College . . . used to be Orange High until the new school was built in '53. **Lower Right:** The Public Library . . . modern, well-equipped . . . a familiar place . . .



We're proud of our modern civic center. Built a few years ago. And we're proud of our plaza fountain . . .

Dedication . . .

This is the Plaza, our town landmark. Branching from it are the business . . . homes . . . and industries of Orange residents.

It is to you, the people of our town, that we dedicate this book.

In it you will see what we do, what we study, what we like. You will also perhaps see how we feel about things like ideals and goals . . . success and life in general. We don't come right out and say what we think about those things, though. You've got to catch it between the lines.

ASB President: Barry Hennings.

Student government's important here.

In our school we try to govern ourselves. We elect officers — call them the Student Body Cabinet. They meet every Wednesday.

This year they've talked about Homecoming and P.A. systems . . . Victory flags, a recreation night . . . and a lot of other things.

Our top officer is ASB president. That's him over there on the left. Barry Hennings. He's had an awful lot of responsibilities this year. Like presiding over meetings and leading assemblies . . . and representing OHS in hundreds of ways. A big job . . . Barry's done it well.

Tim Bartshe's our vice president. He's here to the right of you. He's been a good leader, too. He presided over the Senate. And was Orange's delegate to California Association of Student Councils meetings.

Our secretary, Karen Ericson's done an awful lot of work. Typing minutes, dittoing copies, writing letters . . . Karen's always been poised, efficient . . . neat.

Our treasurer is Karen Carlson. She's the one who worked on the budget, sold tickets all the time. Counted money and counted money. And tried to keep track of all our money.

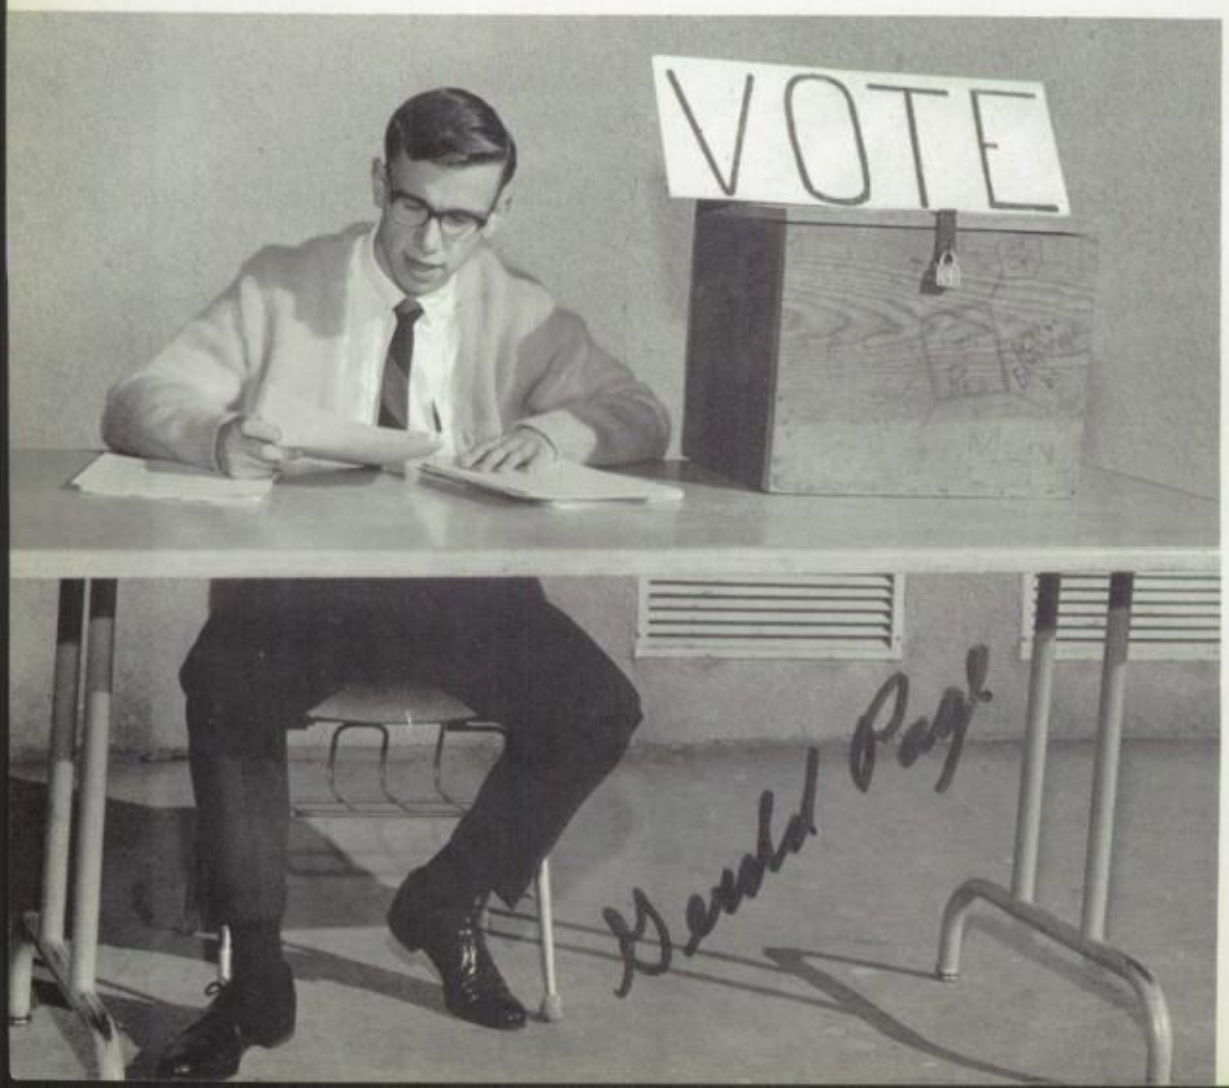
Above: ASB VICE PRESIDENT: Tim Bartshe. **Lower Left:** ASB TREASURER: Karen Carlson. **Lower Right:** ASB SECRETARY: Karen Ericson.

We elect our student leaders . . .

they've

COMMISSIONER OF PUBLICATIONS: Heidi Trisdorfer. COMMISSIONER OF ELECTIONS: Gerald Page.

COMMISSIONER OF PEP: JoAnn Brue.



Heidi Trisdorfer's job as Commissioner of Publications started last summer. She edited a huge project . . . the Student Handbook. That's Heidi on the left there putting up the marquee.

And there leaping in the air is our Commissioner of Pep, JoAnn Brue. Her job's been to promote school spirit and lead pep assemblies. A job for an enthusiastic person . . . that's JoAnn.

Maybe some of you can remember last spring when Gerald Page ran for Commissioner of Elections. Remember his campaign slogan? "Fast, Fair, Future Elections." He's worked to keep that promise. Coordinating elections. Counting ballots. Supervising campaigning.

met often to discuss our problems.

Social activities are awful important. Don't you think so? We've got an officer — Commissioner of Social Activities — whose responsible for all that. Lisa Denver's held the office this year. And done a great job.

She'd go to any extreme to advertise activities . . . ridiculous costumes, hilarious monologues. She earned herself the reputation of "craziest senior."

She did a lot of silly things. But a lot of serious things, too. She was concerned — very concerned — about our attitudes and spirit. And she worked hard to improve them.

Dave Stuck, as President of Boys' Forum, was also Commissioner of Boys' Activities. His responsibility — to represent all the boys of OHS. Dave's been a good worker. A little quiet . . . but friendly and respected. And active and interested in school activities.

Girls' League President and Commissioner of Girls' Activities this year has been Kathi Welch. A good leader, too . . . and an interesting girl. She has enjoyed participating and helping . . . and working to maintain Orange's reputation for having well-groomed girls.

Above: COMMISSIONER OF SOCIAL ACTIVITIES: Lisa Denver. **Below:** GIRLS' LEAGUE PRESIDENT: Kathi Welch.

GIRLS' LEAGUE CABINET: **Row 1:** Kathi Welch, Mary Reins, Lorretta Brenneman. **Row 2:** Linda Wann, Jeannie Kemper, Bev Smith, RaNel McKee. **Row 3:** Leslie Ritter, Kathy Spradlin, Barbara Wilder.

Girls' League's about the most active group in our school. This year's officers are posed there on the left.

Their purpose — to unite the girls of OHS. They've sponsored quite a few assemblies . . . a fashion show, folk singers, and a Talent Show — that was with Boys' Forum.

And they've given a lot of service to Orange High, too. Collecting canned food at Christmas for the Friendly Center. Decorating the school's giant Christmas tree. And giving scholarships.

And they've honored three outstanding girls each month — one from each class.

Boys' Forum had died last year. Lack of interest. With an awful lot of working and planning it was revived this year.

The first project, the Constitution, began during the summer. Next project, elections — Dave Stuck got president. Boys' Forum was again an active part of OHS. We're glad.

Like Girls' League, Boys' Forum's served the school. And they've sponsored assemblies for the boys. They've recognized three "Boys of the Month" every month. And they've honored a girl, too . . . "Sweetheart of the Month."

STUDENT COURT: Helen Schade, Bob Mein, Dave Stuck, Jeff Allen, Tom Williams, Leslie Ritter, Cheryl Glancy, Jim Kendall.

CHIEF JUSTICE: Jeff Allen.

See those eight students sitting there around that table? They make up our Student Court. It's their job to mold the attitudes of the whole student body. Sort of set the pace, you might say. Awfully important.

This year they've spent a lot of time working to solve problems like vandalism and litter and smoking.

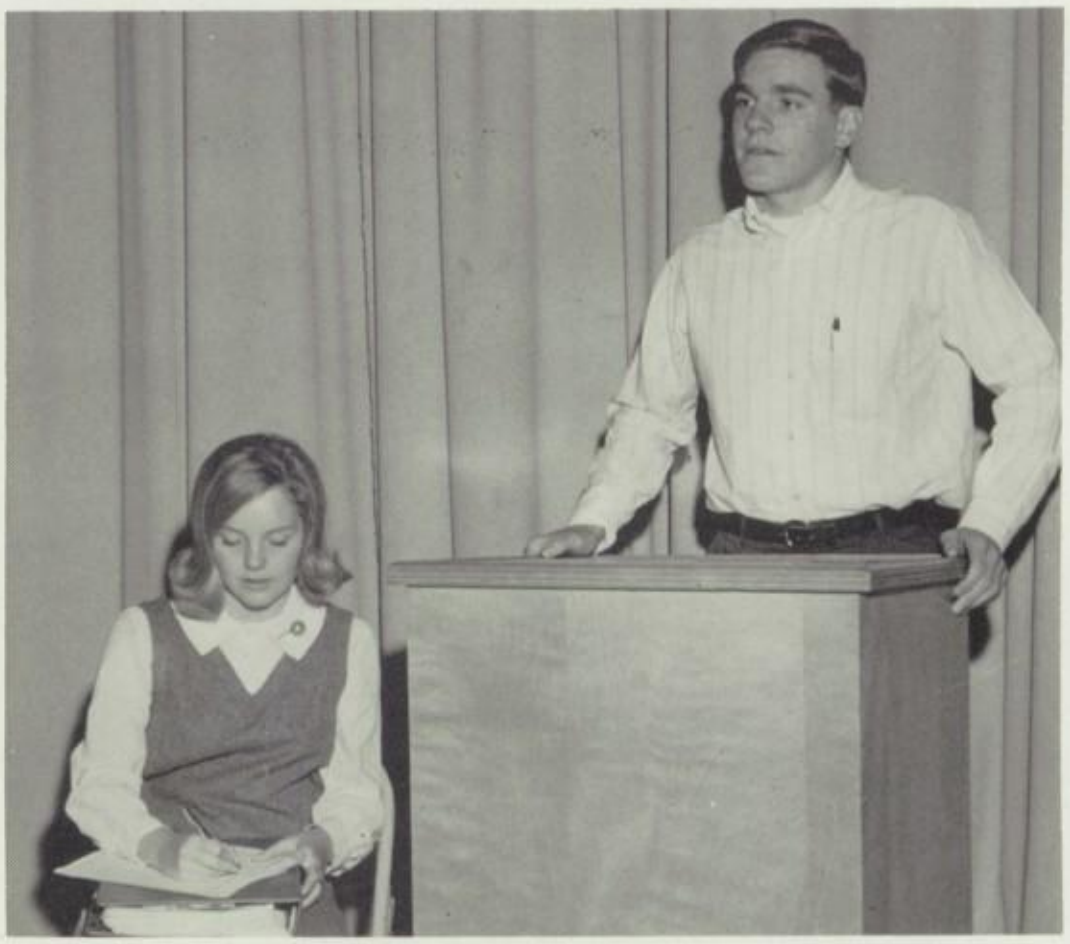
Jeff Allen's been the Chief Justice. He's interested in student government. Interested in seeing students govern students. Jeff's had a lot of good ideas . . . and a lot of ambition. He's done a good job.

. . . Court, House of Reps., Senate . . .

We try to be as democratic as we can in our student government here. We've got two different "houses." The House of Representatives and the Senate.

Each third period class sent a representative to the House. They've met the first Friday of every month. They've brought up a lot of new ideas this year. And a lot of people have participated . . . good background for living here in our society.

Senate's made up of all the club presidents. The ASB vice-president presides over the Senate. That's been Tim Bartshe's job this year. Senate sort of coordinates club activities. This year they did a lot of work with inter-club competition for campus cleanup. Each club was responsible for keeping clean a certain area. It worked pretty good.



HOUSE OF REPRESENTATIVES: Secretary, Beth Hunsaker; Speaker of the House, Bill Reynolds.

SENATE: Row 1: Kathy Sayama, Judy Specht, Rose Martinez, Sherry Merriott, Susan Blackburn, Dianne Walz, Mary Reins, Peggy Harlin, Linda Clark, Jeannie Kemper, Mr. Jackson. **Row 2:** Warren Johnson, Dave Kendall, Jim Engle, Dale TerBush, Bob Cameron, Greg Fike, Andy Haas, Tim Bartshe, Tom Peterson, Scott Holmes, Mike Blair, Ed Wilson.

Here's Paula and Maria . . . helping

We were awful lucky this year. We had two foreign students . . . Maria and Paula.

Over there on the far left, dressed in her national costume, is Paula Hamalainen . . . lively, bubbly . . . and smart and friendly . . . a delightful Finnish blonde.

Paula likes gymnastics. There's a picture of her performing for us at the talent assembly. Back in Finland she was champion of all the secondary schools.

Our other foreign student was from Spain, Maria Donaque. That's her there standing by the globe. Maria likes music and concerts . . . and theaters and museums. "Cultural" type things, guess you could say.

And she loves to sing. And play the guitar.

We're all pretty proud of Kathy Nielsen. She got to spend a year down in Brazil. Had a wonderful time . . . learning the language, meeting people, understanding them . . . and representing Orange High . . . and all America.

The kids in AFS have worked hard this year. Helping our foreign students. Raising money . . . selling cokes at games, sponsoring a dance, having a bottle drive. And they worked on an entry for our town's May Festival Parade.

Youth For Understanding exchange student: Paula Hamalainen from Helsinki, Finland. American Field Service exchange student: Maria Donaque from Madrid, Spain.

. . . we had an awful lot of spirit.

We've got a mascot here at our school — sort of a symbol of school spirit, guess you could say. "Patty Panther" she's called. Sue Perry had a good time being "Patty" this year . . . yelling and clapping . . . and playing with her tail . . .

Our flagtwirlers were awful good this year . . . they added a lot to pep rallies and games and parades. There's something about the swishing of flags that's kinda exciting . . .

Our majorettes were good, too — they performed in parades and games, too. And went with the band and flagtwirlers to UCLA Band Day. It was a fun time.

We had something new this year — JV yelleaders. They really worked awfully hard . . . working out routines, practicing and practicing, leading yells at the JV football and basketball games.

Band members worked pretty hard . . .

We've seen quite a bit of our pep band — they've played at pep rallies and assemblies and basketball games. Some people say they're the best pep band around. Could be. Paul Trethewey's been the student director— an awful talented boy.

There below's the "Panther Band" — the one that played at games and marched in parades. They've had a good time together — practicing and practicing — Thursday nights . . . and District Festivals. And they earned money . . . sold mops and candy bars.

Drill Team members met twice a week all last summer—practiced from 7-10 a.m. working out halftime routines and marching in parades. And putting on the drill team show.

Around Christmas they all sold candy canes. Another time they raffled off a huge lollipop . . . Mr. Hensley won it. They've had car washes too. Used the money for costumes and stuff for their show.

Don't know if any of you've ever worked on a newspaper before . . . it's hard to imagine how much work there is. Planning. Interviewing. Talking. Researching. Telephoning. And selling ads and writing letters.

and finally . . . the book was done.

Every year we put out a book to sort of remind us of everything that happened during the year. The annual staff's in charge of putting it out. This year they've met every day, third period — but an awful lot of the work was done after midnight . . . deadlines, deadlines, deadlines.

It was kinda fun — but you probably wouldn't believe how much work goes into publishing a yearbook. Trying to get organized during the summer, deciding on a theme, selling ads.

Staff members will remember all the trips to Albert — James, selling annuals at lunch. And running all over trying to identify people in pictures.

There were happy times — the day we got the cover back from the printers, the day we got our first proofs back . . . and the day the annuals finally came, and giving them out.

LITERARY CLUB PRESIDENT: Jim Engle. **SECRETARY-TREASURER:** Carolyn Ward. **ADVISOR:** Miss Hull. **NOT SHOWN: ADVISOR:** Mrs. Bunger.

Guess you can guess by now that some of us like to try to express ourselves all sorts of ways — you know — art and music . . . and poetry . . .

Every year the Literary Club takes contributions for a magazine — **Syllabus** — poetry, prose, short stories, and art work.

That's the club president — Jim Engle — there on the left reading somebody's work. Carolyn Ward, secretary-treasurer and Miss Hull, sponsor, are there listening. Mrs. Bunger's worked as a sponsor this year, too.

Club members went over all the contributions, picked out the best ones, and laid out the book . . . spent an awful lot of time — it was worth it.

We spend a lot of time learning how

In our town there's a lot of people interested in us here at OHS . . . spend a lot of time giving us a chance to learn about government and good citizenship.

Every year the Optimist Club sponsors "Youth in Government Day." About twenty-five seniors are chosen from A.D. classes to have different city offices for a day. They all had lunch with the real officials and watched a city council meeting. And they had a council meeting of their own, too.

The Daughters of the American Revolution's another organization interested in recognizing good citizens. They sponsor an award given to the senior girl voted "outstanding citizen" by all the senior girls. It's really an honor. Kathy Sayama got it this year.

During the summer Helen Schade and Tim Bartshe represented OHS at Girls' State and Boys' State. Students from all over California met to learn about government and lawmaking and elections in a practical way.

SENIORS . . .

"My, wasn't life awful and wonderful."

A lot of people say that the best year of life is your senior year in high school. Could be. It's kinda hard to tell, now, though. Maybe when we get old we'll think that way. But now, there's too many other things on our minds.

Like trying to relive exciting times. Fun times. Planning Coronation. Looking at graduation announcements. Deciding on a gift to give the school.

And sad times. Losing the Victory Tree. Homecoming. Graduation . . . singing the Alma Mater for the last time.

We'll remember it all. It's been awful . . . and wonderful.

It all started September 10, 1963 . . .

Go, Go, Go, Go, Go, Go, Go . . .

We're the class of '66.
Those three years went so fast
and so slow.
We're sorry now that we didn't
take advantage
of every single day.
Sometimes we wish we could
start all over again.
But not now.
Now we must move on
to another
way of life.
Our high school days
have ended.

Good-by, Orange High . . .
Good-by to teachers
and all the kids.
Good-by to bells ringing
and fire drills.
Good-by to lectures . . .

In our town we like to brag about the weather — you know-California sunshine all year round. 'Cept for Homecoming. You remember how it rained that week back in November. Plans for a halftime show had to be canceled. Some of us were kind of upset. Nothin' we could do about it, though.

Guess we're the only school around that had two Homecoming Queens. Out of 1800 votes, there was an exact tie. And the other candidates were just a few votes behind. Can you imagine?

It's all just a memory now . . . playin' football in the mud . . . admirin' the decorations—orange and white streamers and balloons . . . waitin' and waitin' and waitin' for pictures . . .

Royal smiles.

We've had a tradition here at our school for quite a few years. Every year round Christmastime the senior class gives the Coronation Ball.

It's always a fun time. Everybody's so dressed up and looks so . . . so elegant, guess you could say.

This year we had it at the Disneyland Hotel . . . Magnolia Room. Over by one wall there were two huge white Christmas trees — awful pretty. And everybody who came brought a gift for some child at the County Hospital . . . and put it there under one of the trees.

The whole senior class voted on the Coronation King and Queen. They announced 'em at the dance . . . Sue Perry and Nick Minardi. We were glad they got it. That's them there on the left getting crowned . . . last year's King and Queen did the crowning.

Girls' League sponsors a big girl-date-boy dance every year . . . "Knight to Remember" it's called. This year it was in February, the 19th . . . at the Yorba cafetorium. Whole place was all decorated up like a medieval castle.

Reckon the part we'll remember most was when Helen crowned Andy "Knight to Remember" . . . and his crown kept falling off . . .

Girls' League cabinet had picked the five candidates for knight. And then everybody at the dance voted for whoever they wanted to get it.

Andy's "court's" posing here around him . . . Tim and John and Barry and Tim . . . we'll remember them. And ten, fifty years from now we'll see 'em here and wonder what they're doing . . .

Don't think any of us will ever forget our Homecoming pep rally. 'Bout thirty teachers showed us what a pep rally was like back in 1903. We laughed and laughed and laughed at our teachers . . . each one dressed up sillier than the next . . . it don't do any harm. Remember Mr. Stotts and his baton? And Dora and Mr. Gully . . . And Tommy Townsend and Gracie Paulsen . . .

There's George Villistes way over there in the right hand corner. The fellow holding up that newspaper. We thought he was a Communist student at first — that's what he was introduced as and that's what he talked about. In fact, he started telling us the advantages of Communism and a few people walked out.

And then he explained who he was — a "rotten Capitalist from Santa Barbara" — that's just what he said. And he said he was proud of it. And proud to be an American. And proud to be able to tell high school students about how the Communists work and all the loop-holes in their plans.

Assemblies are pretty important. 'Bout every couple weeks or so, the whole school gathered out in the Outdoor Theater. And Barry'd be up on stage and would go to the mike and say, "Will everyone please stand for the flag salute . . . ready begin . . . I pledge allegiance . . ."
And then . . . a speaker or singer or something. Interesting. But it's the little things about assemblies we're going to miss . . . the hot sun on our shoulders, looking at the initials carved on the benches . . . singing the alma mater . . .

Clubs are awful important—give us

FCA's a fairly new club here at Orange. Initials stand for "Fellowship of Christian Athletes." Membership's open to Christian athletes who want to learn more about the Bible and Christ. They've worked together on quite a few projects . . . like car washes to earn money to send boys to camp.

Our basketball coach, Coach Hamer, is the sponsor. President this year's been Tom Williams.

Interact's also a pretty new club . . . just got started last year. They're sponsored by the Rotary Club here in Orange.

They've done a lot of things . . . mostly fund-raising and service projects . . . car washes, bottle drives, ticket sales . . . They've been able to send a crippled child to summer camp. And they provided a poorer family in town with a wonderful Christmas.

They hosted the district Interact conference . . . boys from all over went to it.

Union Bank here in town sponsors the Banking and Finance Club. A lot of us like to learn about big business. Ever wonder about things like if anybody you go to school with will someday be rich and famous . . . a millionaire maybe?

Banking and Finance members've toured all sorts of places . . . stockbrokers, a title company, the Irvine Company, home builders, Buzza-Cardoza, Chrysler Corporation. And they had a father-son banquet on March 4. Had it at the Wilbur Clark Crest Hotel.

All the guys with a varsity letter can join Letterman's Club. They were the first club to win the Crud Cup . . . for having the dirtiest area of the campus. Not really anything to be proud of.

They've done other things, though. Played the faculty in Donkey Basketball. And beat 'em. And sponsored the Lettermen's Ball in March. And at the end of the year they had a beach party to elect new officers.

RIGHT: "S" Club President Kathy Sayama.

Think "S" Club's been one of the busiest clubs this year. Every month . . . a business meeting, a program meeting, a service project.

Sophomores and new members remember that Saturday morning in November . . . and running around the plaza . . . getting initiated.

Membership's pretty select. Have to have a high grade average, have an interest in student activities. And have a desire to help.

"S" Clubbers remember Mondays, room 202 . . . blue uniforms . . . ringing doorbells for the March of Dimes and Heart Fund. And Mrs. Beutler's office . . . bringing fruit at Thanksgiving for cornucopias, toys at Christmas for the County Hospital, and used clothing. And visiting rest homes. And planning the spring sports awards banquet.

Working. And planning. Helping. It's a good club.

KEY CLUB PRESIDENT: Tom Peterson

About the most active club around is the Key Club. That's their president there on the left-Tom Peterson.

They've done an awful lot of work for the school . . . and for the whole town, too. Like they collected magazines to give to the County Hospital. And paperback books to send to the guys in Viet Nam. And they sponsored a clothing drive and canned food drive for needy families right here in our town.

Around school they've raised and lowered the flag every day, repaired the senior bench, and played records over the loudspeaker at lunch.

Key Club's sponsored by the local Kiwanis Club. They work together sometimes. Every year they help with the Kiwanis light bulb sale. And this year they had a touch football game. Key Club beat 'em.

Langauge clubs are a lot of fun—

SPANISH CLUB: Row 1: Linda Clark, Jim Bolliger, Norma Suffron, Sally Nelson, Kathleen Pysden, Janet Palmer, Barb Jones, Debbie Innes. **Row 2:** Mary Lou McCaslin, Rosanna Kohler, Pam Long, Barbara Kroll, Maria Donaque, Gwen Hobson, Corinne Johnson, Joy Moeller. **Row 3:** Tom Dunn, Craig Peoples, Don Ault, Pablo Grill, Jim Kroll.

Language clubs are pretty popular in our school. We like to do things and go places where everybody doesn't always talk and think in English.

Spanish Club's gone to Olvera Street and Padua Hills. They've collected eggshells too—about 400 dozen of 'em. They filled them with confetti and sold them at the Sophomore Carnival.

One of French Club's activities was a seven-course French dinner at a restaurant over in Anaheim. At other meetings they've seen slides of Europe taken by our French teachers.

German Club had a couple of major activities. Around Christmastime they all went ice skating. And in March they sponsored a full-length German film with English subtitles — "The Devil's General."

Chemistry.

In our school we like to find out about all sorts of things. Science Club's been pretty busy this year. Finding out about things.

Like fossils . . . digging in the hills up by Irvine Lake . . . finding sharks' teeth and seashells. They say the whole place here was all under water a few thousand years ago. Doesn't really seem possible . . . but that's what they say.

And there was the trip to U. C. Irvine . . . and rain. That was back in November. They went through the science labs there. And were tutored in American history by a computer. Imagine.

Club members raised money during football season . . . selling coffee and donuts . . . and pizza, too.

One of their best programs was a lecture on animal behavior. Dr. Maynard Brattstrom gave it. Awful funny. And interesting.

At another meeting Mr. Williams, our physics teacher here at school, gave a talk on Africa. Another time some fellow from Bell Telephone talked about amplified light . . . laser beams they call them.

CSF PRESIDENTS: Dave Kendall and Paul Trethewey.

CSF — California Scholastic Federation — is mostly just an honorary club. To belong you have to earn a certain number of points . . . three for an A, one for a B.

Think about the best part of being in CFS is the honors and privileges. Every member gets a "privilege card" . . . lets him get out of class five minutes early before break or lunch or the end of school. (If it's okay with the teacher.) The card can also be used like a pink slip. And during a study hall you can use it to study outside.

Once a year all the members get a day off from school for a field trip. Went to the L. A. County Museum this year. And toured U.S.C.

Presidents are there on the left . . . Dave Kendall first semester . . . Paul Trethewey, second semester.

FUTURE NURSES: Row 1: Judy Specht, Joanne Schlueter, Carol Roark, Pat Grimes. **Row 2:** Janet Turner, Letitia Giese, Joanne Turner, Richard Cure, Lorraine Mullen.

Health Careers Day at SAC was probably the most interesting activity of our Future Nurses Club. About 600 kids from all over the county went. There were panels and displays and movies. FNA's also visited St. Jude's Hospital. And sold candy and peanuts at games . . . then gave the money to the Children's Hospital.

Future Farmers had a lot of field days. They judged animals at Chino and OCC.

Raising money was the Future Homemakers' biggest project . . . wanted to be able to redo the living area and get new curtains for the Homemaking room. They've had a Tupperware party. Another time they visited Fairview Hospital.

Teacher Tyros had a lot of good meetings . . . learning about teaching. Members got a chance to practice teaching on each other. And senior members could go out and "cadet teach" at some school around town.

BOOKMARKERS' CLUB: Row 1: Robert Scheldrup, Susan Blackburn, Kathy Kelby. **Row 2:** Ruthanne Bechtel, Judy Specht, Joanne Turner, Elaine Kelby.

Maybe the Literary Club members see a little more about life. At least they like to talk about it . . . and their feelings and attitudes. They met once a week . . . and talked about their own work and other literature. One time they had a speaker — Mr. McCulver —spoke on public speaking. Probably their biggest project was putting out **Syllabus,** our literary magazine.

"Bookmarkers" spend a lot of time helping out in the library. You all remember the Christmas decorations we had in the library? Bookmarkers put 'em up. They helped out at the Book Fair, too — had a tea for the teachers. And helped with book mending and checking out books.

Photo Club's had a pretty busy year . . . taking pictures and developing them. They raised money too — had a few car washes. Wanted to get dark room supplies.

They've had quite a few activities — like a trip to Universal City Studios, a picnic at Irvine, horseback riding. . .

Artists here at Orange took a trip to Huntington Library — and helped out at the art show.

Drama Club was awful popular . . .

"I'm going to make speeches all my life . . . it was like silk off a spool . . ."

But there's an awful lot more to drama than making speeches. In fact, sometimes it ought to be called "Set Painting I" or maybe "beginning carpentry."

Drama Club had all kinds of activities—saw the movie **Charade,** had a car wash, sold candy, toured Melodyland, took care of all the intermissions at the shows. And at the end of the year they sponsored the "Little Oscars" awards banquet and dance.

We had three big shows here at our school—"West Side Story," "My Three Angels," "Damn Yankees." It's kinda hard to imagine all the hours and hours of work it takes to put on a show . . . trying out and rehearsing and getting tongue lashings . . .

There's so much to remember . . . the mean little snake Alfred, the scrawny, runty little Christmas tree, and daisy petals . . .

Junior chefs slave over hot griddles.

By now you've probably noticed that we don't like to do ordinary things all the time. We like to try new ideas. Like the senior breakfast.

The junior class sponsored it in February—the 11th. Some of their steering committee members met down at the Y around 5 in the morning. Guess maybe that sounds a little ridiculous. But it don't do any harm. And they had a lot of fun— decorating the tables . . . red crepe paper hearts, and getting ready to serve.

The food was pretty good — they had pancakes with syrup and sausages . . . milk and coffee, and some kind of juice. Don't know just what it was.

Another new thing we tried this year was a recreation night. Lisa Denver, our commissioner of social activities, got it organized.

A couple hundred of us came out to the gym one Friday night in March to play volleyball and badminton and ping pong. And some kids played jacks and jumped rope.

We had a good time—being together . . . laughing and playing. It's things like that we're going to miss.

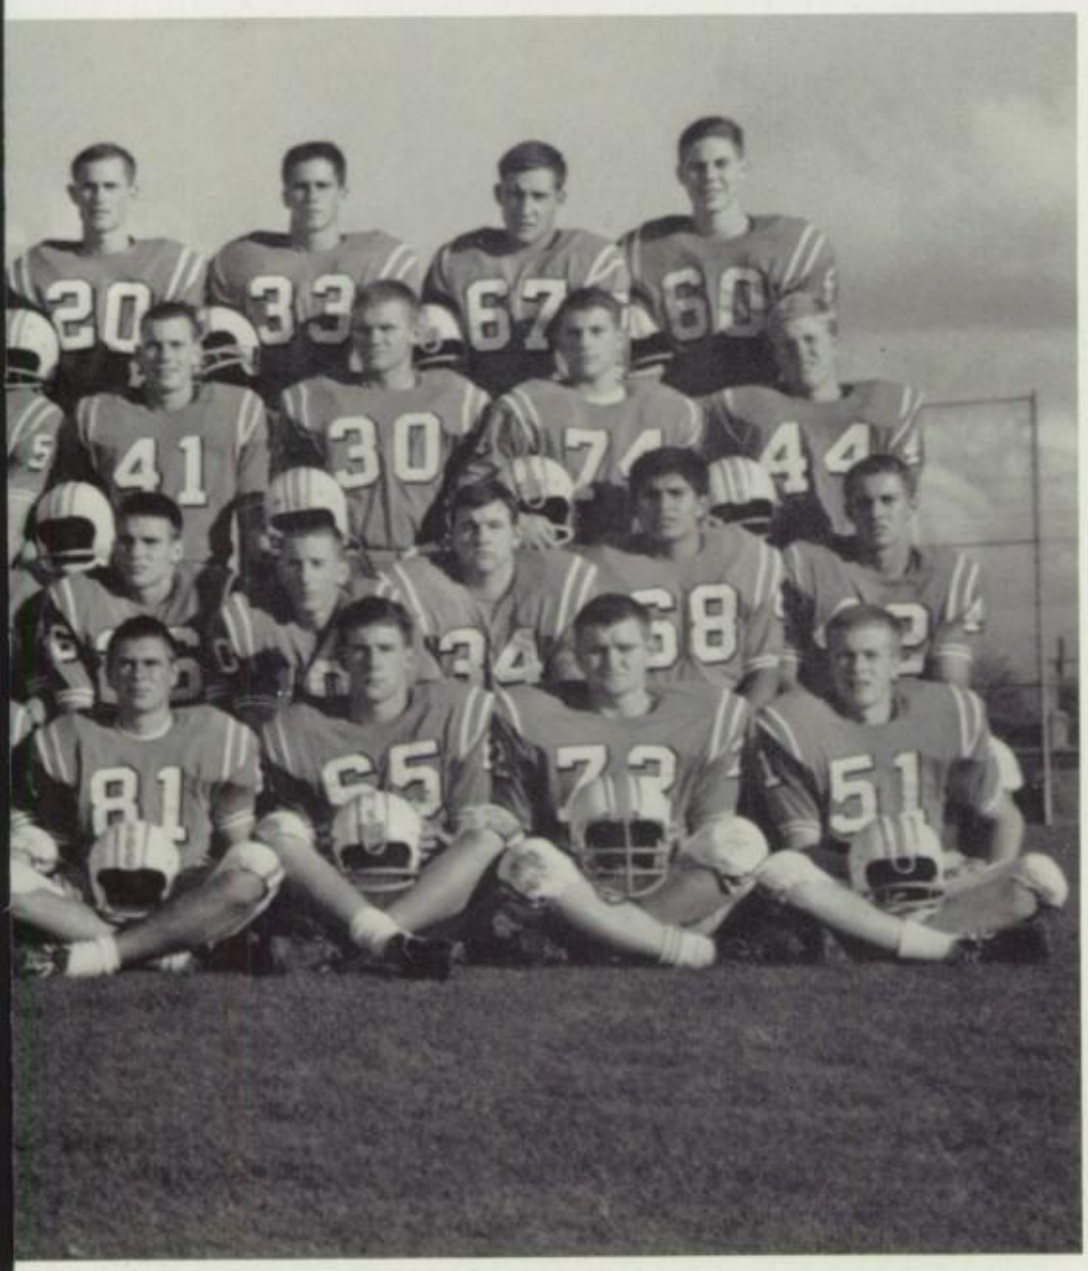
ever thought about was football . . .



In our school we get a lot of pleasure out of football . . . especially when we win. And we started out winning. We beat Tustin 26-0 . . . third year in a row that we've beaten the Tillers.

Next game was with Brea-Olinda . . . the former AA champs. An awful lot of spirit and determination caused Orange to beat the Wildcats 31-6. First time in ten years we'd ever beaten Brea.

And then Buena Park. And disappointment. Our first loss — 0-13. The Coyotes really had a good defense . . . kept us off the scoreboard.

But then we kept on fighting . . . and beat the Sailors down in Newport Beach 6-0. And had a pretty good bid for the league championship.

Down in Costa Mesa we sort of got a sample of future hardships. We started out with an early lead. But the Mustangs tied the score and put up a good defense. We fought hard . . . but gave up another touchdown. Final score was 6-12.

Fullerton's always a pretty tough power in the Freeway League . . . they were this year, too. We didn't do too bad the first half—had a score of 7-14. But then the Indians sort of poured on the steam, guess you could say — and ended up with a score of 14-33.

Back in November — the 5th — the Bolsa Grande Matadors crushed any hopes for the Panthers to finish at the top. Tom and Randy Julian . . . a brother combination . . . scored all the touchdowns for Bolsa's 27-13 win. Panther stars were Tom Hobbs, Tim Jones, Paul Lemoine.

Garden Grove! Remember the bitter defeat of 1964? We wanted to go all out to beat the Argos this year. In the fourth quarter we were behind 7-13. Then a touchdown. And the try for the extra point. It was good. We went wild — and ended up winning the game 14-13.

The last game . . . it was our Homecoming. You all remember the problems we had with the rain . . . and mud. We went into the final quarter tied 13-13. But somehow the Oilers got the ball . . . and Huntington Beach won with a score of 13-19. Our final record was 4-5 . . . not too high . . . but we've got a lot of returning lettermen for next year. We're looking for a good year in the Crestview League.

We'll be in the same league with them next year . . . the Crestview League. An awful lot of good teams will be in it, too . . . Loara, Kennedy, Foothill, Tustin.

We'll have over twenty lettermen returning. A lot of people think we'll have a championship team next year. You never know . . .

Orange 1st Place at League Finals

JV's won the league championship.

A lot of us sort of take for granted all the hours and hours the cross country team spent working out. They've had to work awfully hard . . . only had one returning letterman this year. Coach Slick had to kind of rebuild the squad almost completely.

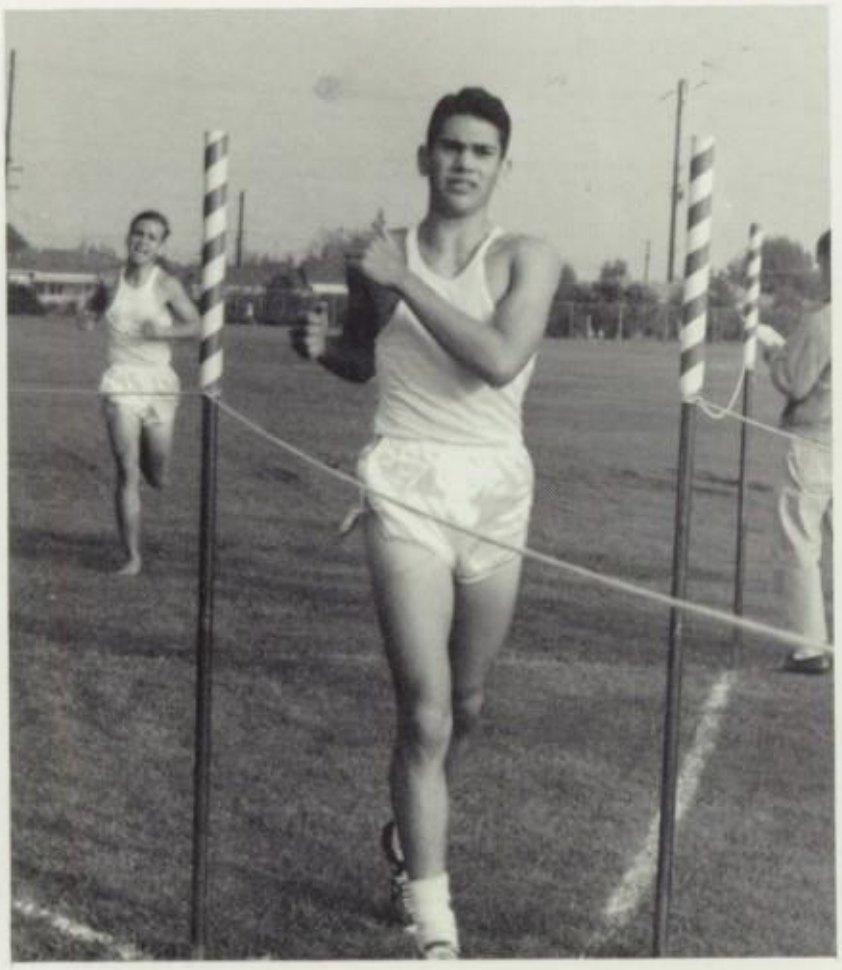
It took four meets and six opponents before the Panthers started winning. Then we won four of our last meets.

But the league finals were pretty disappointing . . . we had to settle for fourth place in the league.

But the JV's had a good season . . . only lost once. They won the league championship.

We oughta have a pretty good team next year. The top two runners will be back. And so will quite a few other members of the team.

Orange's Mike Hood and Ernie Miller set the pace in the dual meet with league champion, Fullerton. Orange lost the meet by four points.

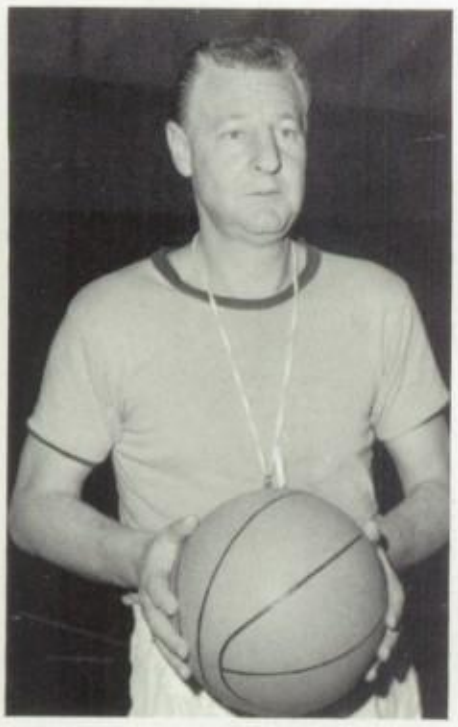


Jim Monroe and Gerald Page finish high during Orange's overwhelming victory over Garden Grove.

Top runner, Keith Strodl, glides across the finish line, leading the rest of the runners.

And here's our basketball team . . .

VARSITY BASKETBALL: Row 1: Jim Kendall, Dennis Kenny, Stew Myers, Dave Kendall, Tom McCollum, Richard Logue, Coach Hamer. **Row 2:** Tom Peterson, Troy Rolph, Tom Williams, Andy Haas, Tom Hobbs, Dave Zirkle, Barry Hennings, Roger Hobbs.



BASKETBALL COACH:
Walt Hamer

Team captains Andy Haas, Tom Hobbs, and Dave Zirkle gained several awards this season. Haas was named Most Inspirational and had the best free-throw percentage for the team. Hobbs was named Most Valuable player, was the team's top rebounder, led the league in scoring, and was All Freeway League and All County. Zirkle was the Best Teamman and Honorable Mention All League.

We yelled ". . . Sink it! Swisssh!"

We all started out the basketball season with high hopes — Orange usually has a good basketball team . . . and this year we had three returning starters. But the first game was against the Tustin Tillers . . . and we lost 74-57.

But then three wins were encouraging . . . Corona del Mar, Laguna, Santa Ana.

In the Valley tournament, Orange started out by beating Santa Ana 71-55. But then . . . guess the four wins were too much for the Panthers . . . they lost to Corona del Mar and Tustin.

During Christmas vacation the first Orange tournament was held. In the first round Orange won, but then the Tustin Tillers took away any hopes for winning the tournament.

League play here at Orange started out with a disaster . . . we lost our first four games to Buena Park, Newport, Costa Mesa, and Fullerton.

But then a win over Buena Park and the start of a winning streak. Like the crowd yelled — "Our team was Reeeeeed hot!" Had victories over Bolsa, Garden Grove, Huntington Beach, Buena Park, Newport . . . put Orange in the running for the title.

The next game was with Costa Mesa — you remember they had beaten us once before. Both teams were out to get up to second place. It was really a hard fought game, but the Panthers lost 82-89.

The season finished off with a loss to Fullerton . . . this took away all hopes for CIF . . . but in the last games we beat Bolsa Grande, Garden Grove, and Huntington Beach.

Actually, Orange ended up the season in third place in the league. But since there was a tie for second between Newport and Costa Mesa that had to be played off, Orange ended up in fourth.

Fast breaking Tom Williams lays it up.

Suppose you could say that in an awful lot of ways the basketball season was pretty much a disappointment this year.

But there was a bright side, too . . . there always is. Over half the team was underclassmen. This means we'll have a pretty good base next year.

We had some other activities during basketball season, too . . . like donkey basketball. That's always a fun time . . . to come and watch the faculty and lettermen try to pull those donkeys around . . . and remember the cheerleaders for that game?

A little later in the year, our faculty got to play again. This time against the Villa Park faculty over in their gym. We didn't win . . . but I'm sure we had more fun . . . tripping over the ball, getting hit on the back with it. And those cheerleaders . . .

Guess we all understand that track's mostly an individual sport. But there's still got to be a lot of team work . . . everybody has to work for the good of the team.

Track team members spent hours running and jumping and throwing . . . and getting all tired out. But all their work paid off — we had a winning track season this year.

Two-thirds of the squad returned from last year. Made an awful strong base. We beat six of our first seven opponents . . . and established ourselves as quite a track power in the county.

And then two defeats — Fullerton and Bolsa. But the next two times we won . . . and then gave everything we had to take it all in the league finals.

Greg Fike broke a couple of school records . . . one in shot-put, another in discus.

It seems like an awful lot of the time we sort of forget about the Bee and Cee teams. We shouldn't . . . they worked just as hard as the varsity teams-and are awfully important places to train for the other teams.

The Bee's scored quite a few victories. And the Cee's did, too. The Cees were a pretty small team-outmanned most of the time. But they scored a remarkable amount of points.

Our Bee and Cee teams were made up of some pretty dedicated underclassmen. It's kinda hard to see anything but success for future track teams here at Orange.

Everybody knows that you can't win everything all the time. Sometimes that's kind of hard to take. But it's like what somebody famous said a few thousand years ago "It's not the winning, but how you play the game that counts."

And if you look at it from the idea of attitude and hard work, our tennis team was successful this year.

We had quite a few problems . . . like, we only had one returning letterman. And the junior varsity squad wasn't too strong. Coach Jim McMillen had to work on two projects — rebuilding the team and salvaging something from the season.

Next year looks better, though. A lot of players will be returning . . . ready to improve this year's record.

The team worked awful hard under the coaching of Mr. Jim Dokos . . . and the Panthers ended up with a pre-season record of 2-3-2. And in league play they had a 0-3-2 record at the end of five games.

And then there was the Elks Tournament . . . and our team sort of "caught fire" . . . and ended up with a record of 10-4 and third place in the Freeway League.

Next year ought to be better. . . Coach Dokos has a pretty strong nucleus for a championship team.

INDIVIDUAL SPORTS: Mrs. Barbara Clark.

SOPHOMORES: Mrs. Carolyn McIver.

SENIORS: Miss Nancy Black.

. . . and we get to know each other . . .

Learning . . .

Linda—

Well I don't know where to start. Remember when we first met in 4th grade (in that horrid French class).

That seems like such a long time ago.

Sandy + I used to give you a bad time but it was all in fun.

Remember your surprise party when we got caught TPing Chris's house.

We've had a lot of fun together.

Stay as cute and sweet as you are

See you this summer.

Good luck always

Barbara

"...we're run here by a board of selectmen."

Superintendent of Schools: Mr. Harold Kibby.

School Board: Row 1: Mrs. June Hawkins, Mr. Bert Skiles, Mrs. Miriam Welch, **Row 2:** Mr. L. Gilbert Darwin, Mr. James Simms, Mr. Kenneth Rohrs, Mr. David Miller.

Mr. Harold Kibby
Supt. Of Schools

Mr. Kibby's the chief administrator . . . it's his job to oversee all the schools in the district.

He's awfully familiar with Orange. Been here since 1937. Started as a business teacher. In '42 he became vice-principal of OHS, principal in '48. He's been the superintendent now since 1953.

An important job . . . a capable man.

School Board

In our town we try to be as democratic as we can. We have an election to decide who we want to make the big decisions for our schools. These elected people make up the school board. They're citizens of the community . . . concerned . . . responsible . . . representative.

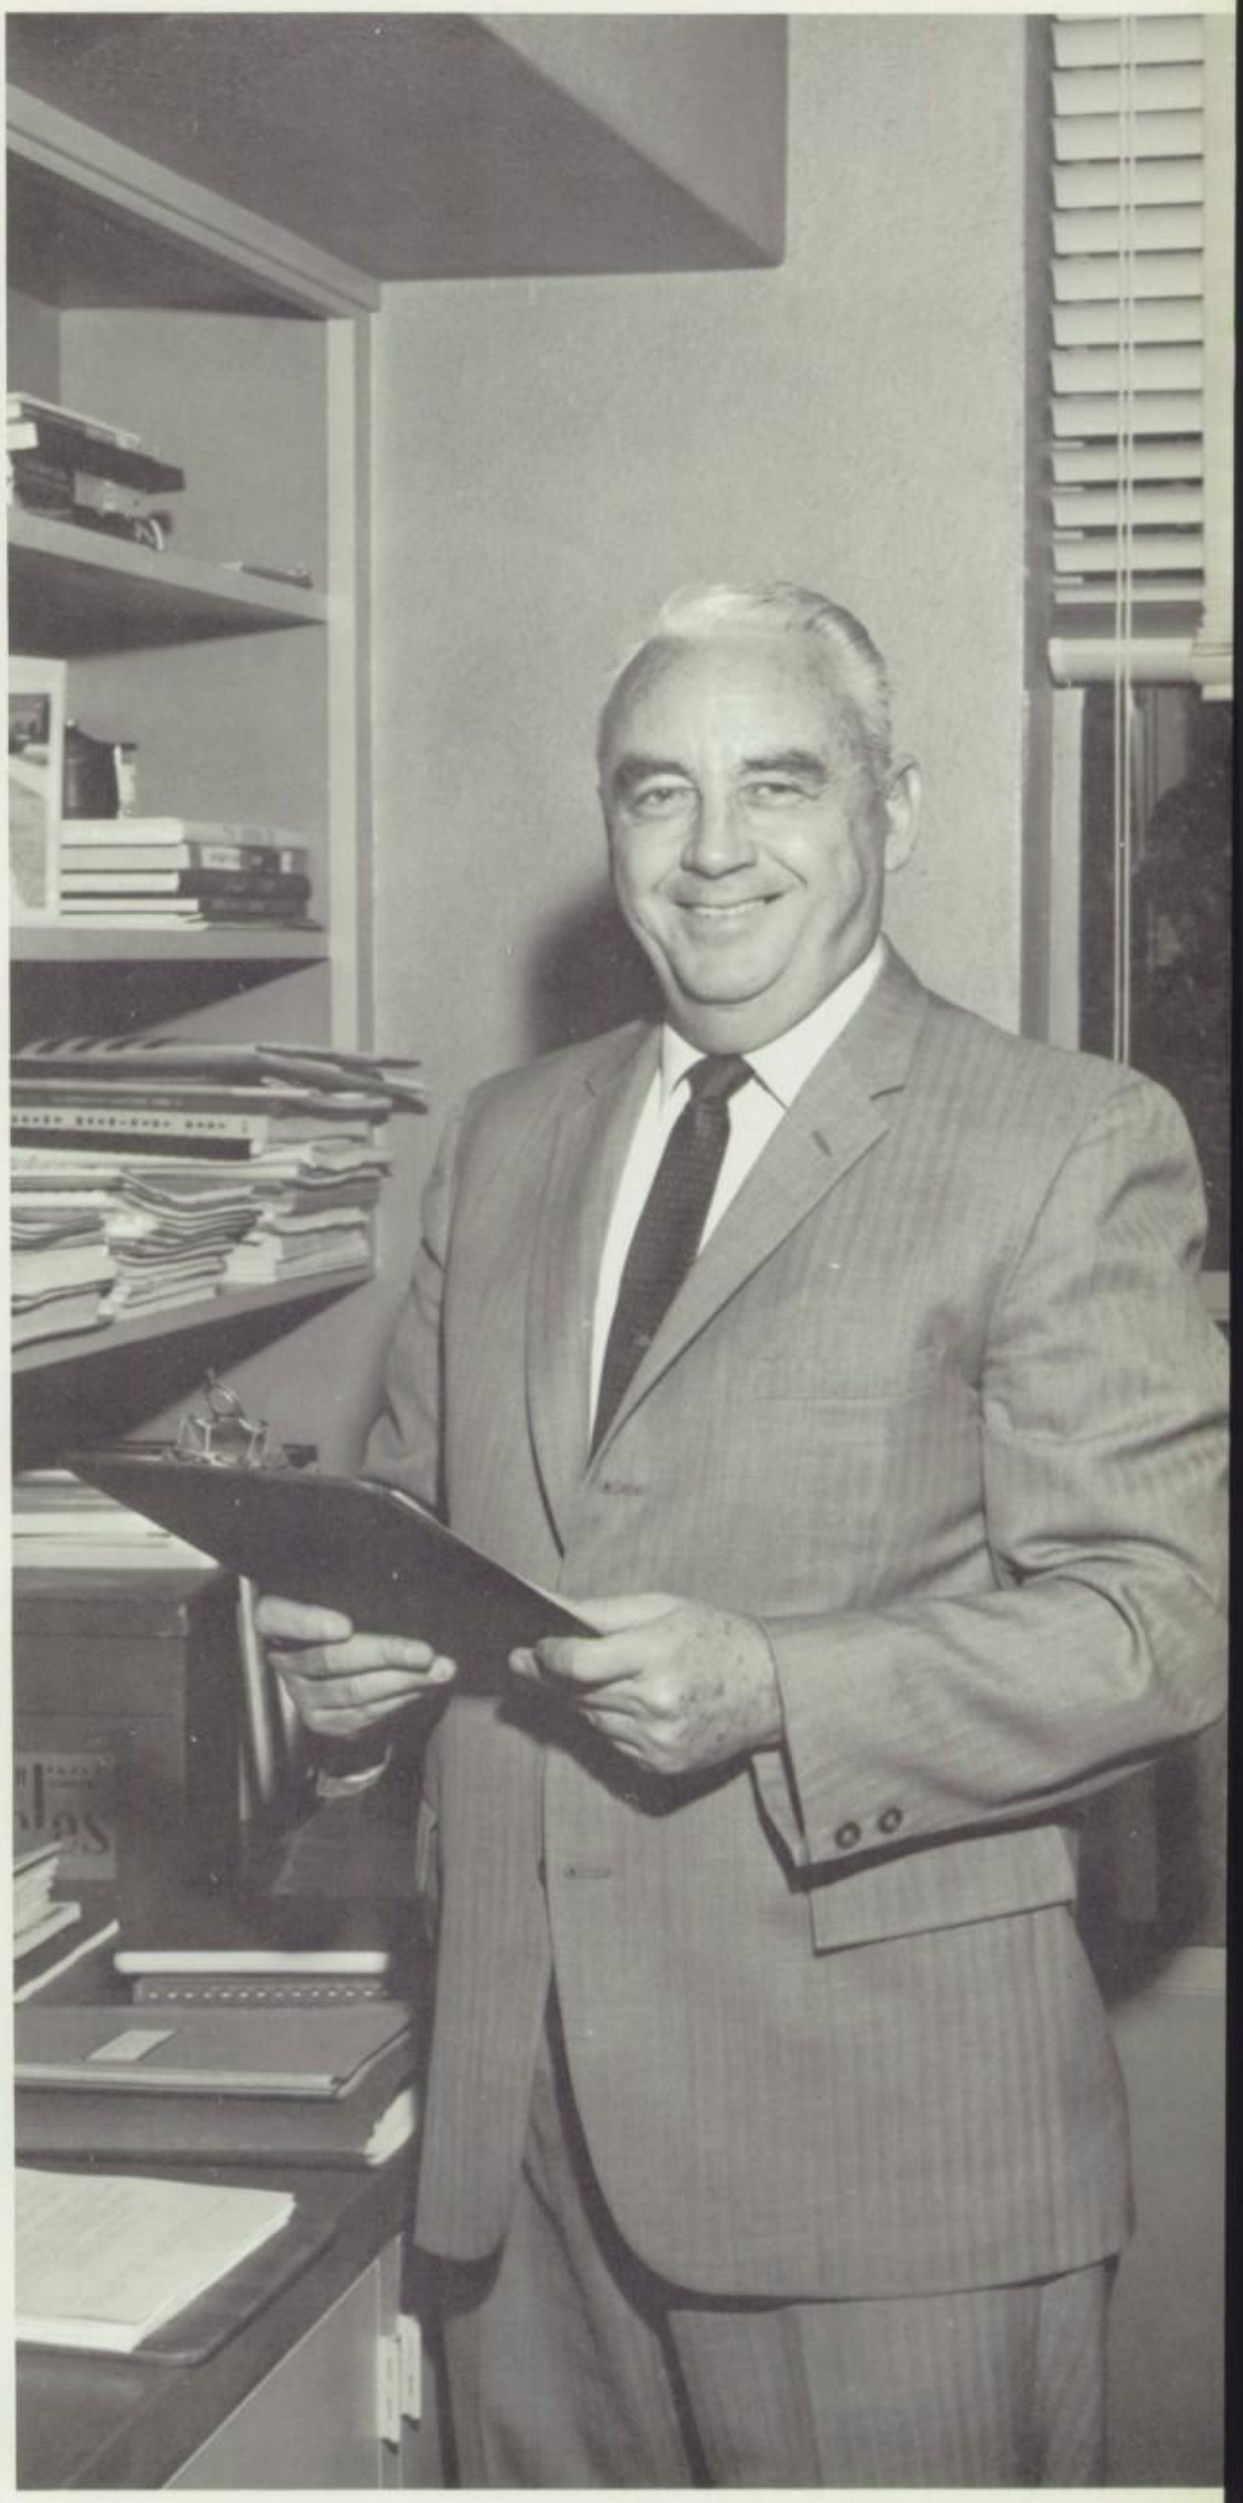
They set school policy for the whole district. They determine the curriculum. And salaries.

We respect their judgment . . .

Mr. Verrill Townsend
Principal

There on the right is our principal, Mr. Townsend. A fine man.

He got his B.A. at Arizona State, his M.A. at U.S.C. He's been principal here for twelve years. Been teaching or working as an administrator in our town since 1935 . . . he's seen a lot of changes . . gained a rich background.



Principal: Mr. Verrill A. Townsend.

Most everybody manages to stop by

Mrs. Grace Paulsen
Assistant Principal

This is Mrs. Grace Paulsen. She's the assistant principal. . . it's her first year. She had been the head counselor.

She's awfully busy — but somehow manages to be Girls' League sponsor, too.

She's from St. Peter, Minnesota . . . likes music and current events . . . and fishing and cooking. She enjoys working with young people . . . having the constant opportunity to help them find and use and develop their finest qualities.

She likes students who are interested — Students who enjoy exploring new ideas . . . and experience satisfaction in achievement.

Her ambitions are high . . . "to contribute in some way toward a world which can offer kindness, concern, and acceptance to all people."

Mr. Len Surles
Vice Principal

Teachers and administrators probably have more varied lives than anybody else. Now take Mr. Surles for example. His title, vice-principal. His job, supervising discipline and attendance and student activities.

He graduated from the University of Oregon . . . went on a football scholarship . . . majored in physical education. He served in the army for four years, too . . . in China, Burma, India.

And he coached for twelve years. And got an M.S. . . . taught math for six years. In '64 he was co-director of student activities at Orange. He's been the vice-principal for two years now.

Besides school activities, he enjoys motor scooter riding . . . once he took the scooters down to Mexico to ride around . . . and sports — swimming, fishing, hunting. He also enjoys his family. His wife teaches at McPherson. They've got two sons, one in college, one a senior at Villa Park.

one of the offices nearly everyday

Mr. Russell Jackson
Activities Director

Here on the left is Mr. Jackson, activities director and attendance supervisor. This is his office . . . colorfully decorated with slogan ribbons and buttons and banners and signs. He's not here very often, though. He's usually attending a council meeting or a committee meeting or supervising the lunch area or answering questions or doing a thousand other jobs.

Mr. Jackson's many interests and past job experiences give him a rich background. He likes to dance . . . once taught ballroom dancing. He enjoys singing with a barbershop group. He enjoys sports events . . . and once he worked as a scout leader.

He got an A.B. in history and science at Colorado State College . . . an M.A. in educational psychology and guidance. He's also taken classes at Chapman . . . Long Beach State . . . Cal State at Fullerton. A lot of education . . .

Mrs. Mabel Beutler

Mrs. Celeste Jones

Mr. Paul Leininger

Mrs. Helen Paxman

Mr. William Stotts

Mr. Floyd Dunning
Head Counselor

Counselors

These are the people who answer our questions and help with decisions. Planning our program . . . analyzing our test scores . . . choosing a vocation . . . preparing for college.

They're fine people. Interested. Friendly. Tactful. Have good backgrounds in teaching and working with people.

For the most part, they're dedicated to helping. It's like what Mr. Leininger said, "I love to work with youth and watch them mature into fine young men and women helping them to recognize themselves." His feelings are shared with the other counselors.

Eighty-three teachers . . . challenging,

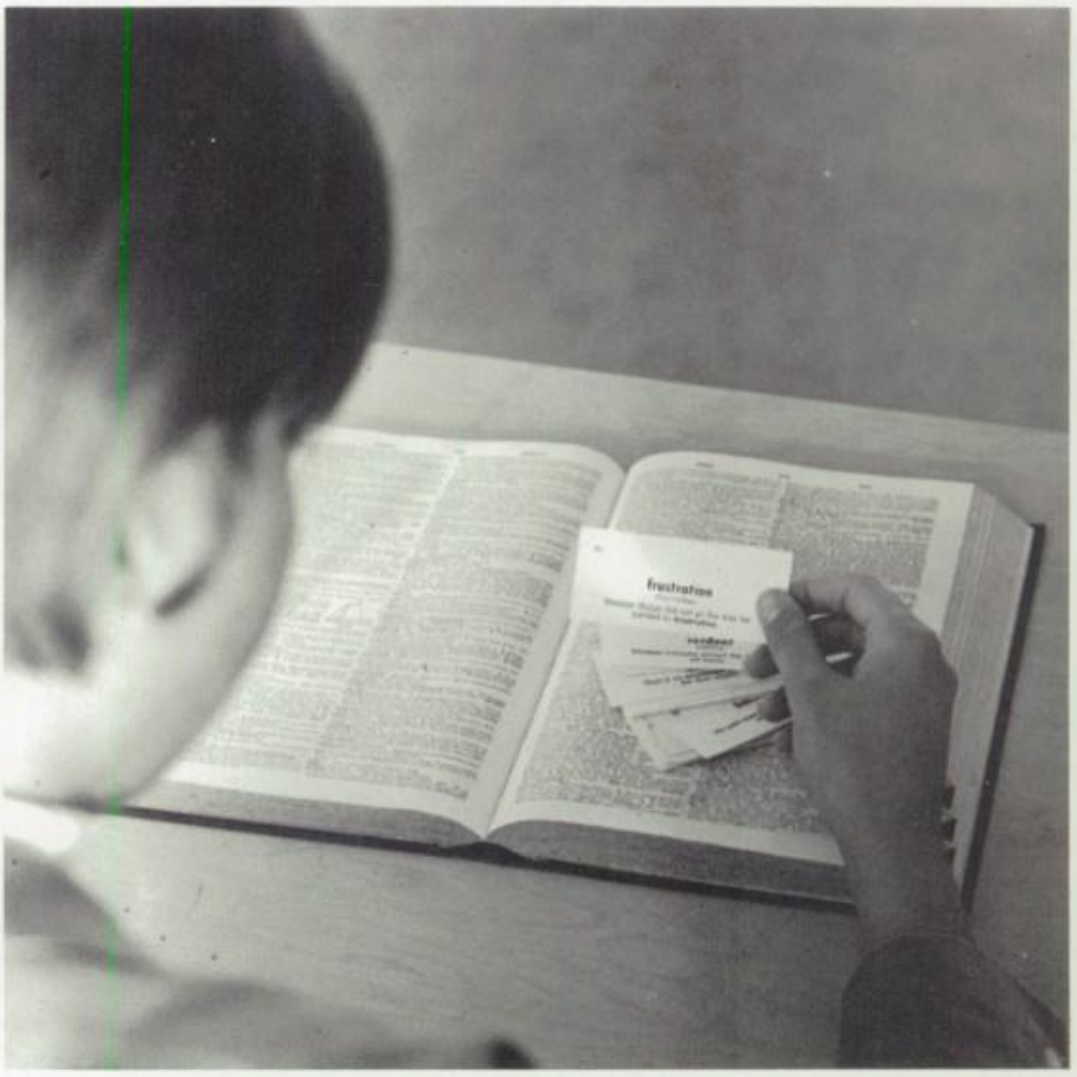
It's after eight now. Classes are in session all over school. The flag salute has been recited. Teachers have begun the daily lesson.

In many classrooms, the students are learning English. You might say that English is the backbone of our whole educational system. Reading and writing are important now, same as years ago.

We learn the basics — grammar and spelling. But, we spend a lot of time reading, too. Shakespeare and Bradbury. Sandburg and Dickens. Rolvaag and Frost. They say that everybody interprets literature a little bit differently. Everything we read makes each of us a little more of an individual. It makes each of our lives a little bit richer.

Some of us like to write. Journalism classes give practical experience by putting out the school paper. Comes out every other week. Deadlines. Disagreements. Achievements. All part of the learning process.

Speech and drama is a popular department. Learning to speak is important. Probably even more important is learning to work together . . . in classroom skits, in elaborate productions.



Frustration . . . a thousand vocabulary cards.

History's awfully important . . . we all have to take it for three years. Sometimes it seems like boring facts about people and events so old and so remote that they couldn't possibly be interesting.

But then, somehow, the teacher will take the facts and tie everything together . . . and we realize how important it is . . . how that our world today is like it is only because of what it was in the past . . . such an important concept to grasp.

Sophomores get a good background in their course . . . modern world history. Besides the history, they learn to research and prepare reports and work together on panels . . . necessary skills.

For the juniors . . . U. S. history . . . it ties in with their study of American literature in English classes. That's good . . . guess one of the best ways to find out about the history of a certain time is to read the people's literature . . . it's a direct reflection . . .

American democracy . . . that's the senior course. Government . . . the Constitution . . . rights . . . responsibilities . . . it prepares us to be informed citizens.

Being informed citizens . . . that's a part of living in society. We've got a course at our school that teaches just that . . . living in society . . . it's called senior problems. And there are classes in economics, too . . . inflation, depression . . . money . . .

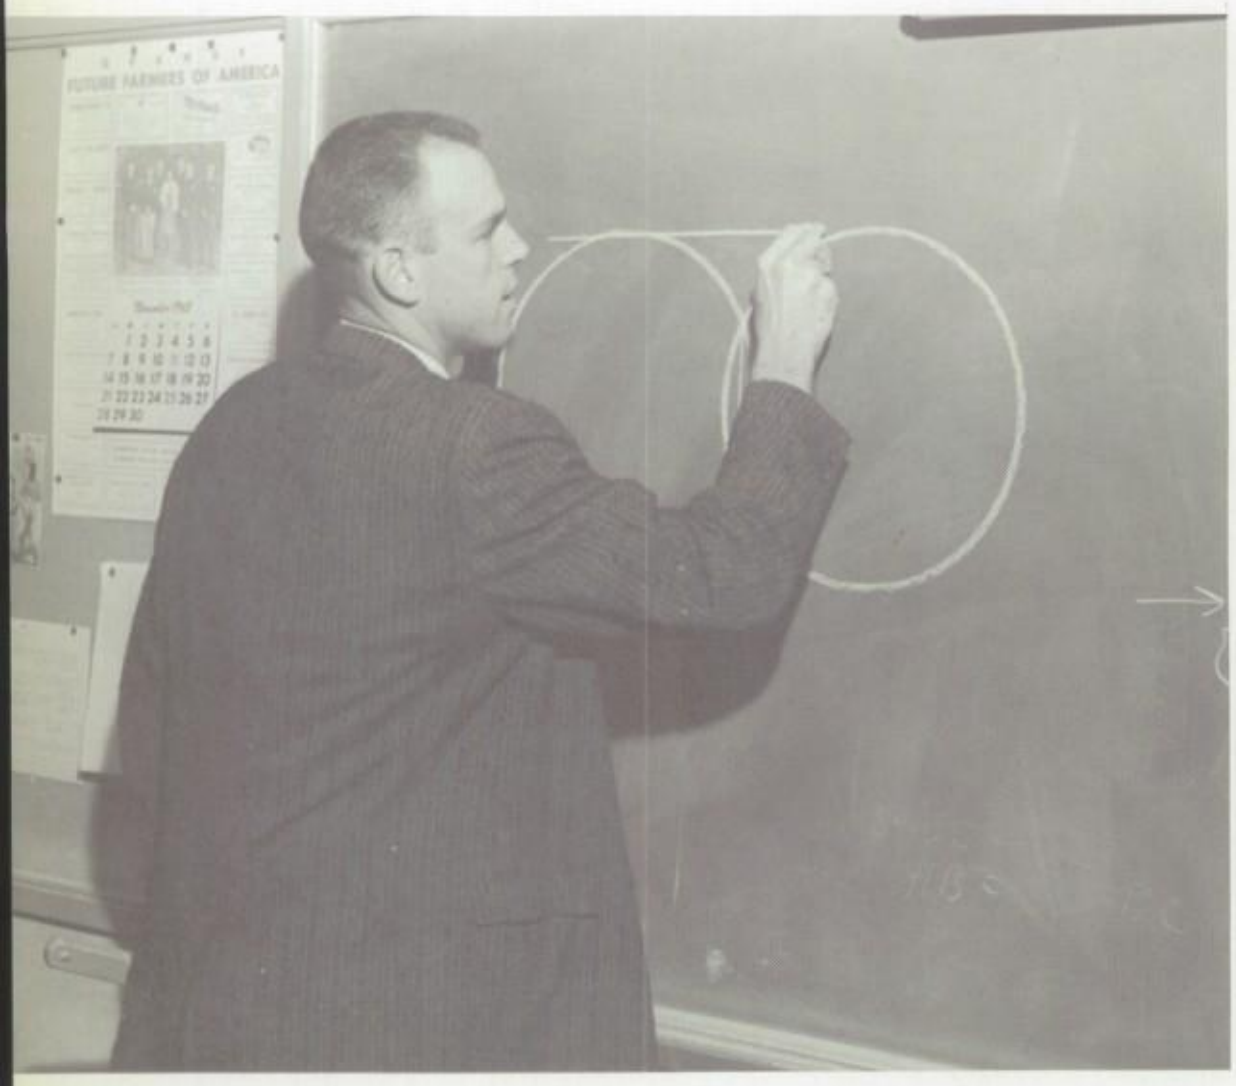
Here's the science department . . .



Mr. Dokos solves a geometry problem.

Everybody tells us that science gets more important and more necessary every day . . . suppose they're right. Some of us have a natural interest in science . . . for others it's hard . . . but usually helpful. And it's required for college . . .

"Queen of the sciences." That's what they call math . . . it's basic for all the others. In our school we've got classes in geometry, algebra, senior math, trig, and introduction to college math. ICM's the most advanced course . . . about sixty students have it.

We're proud of our biology department . . . it uses all sorts of modern methods. Like team teaching . . . the classes get the advantage of having three different teachers. And we've got a lot of lab equipment . . . dissections are fun. . . frogs, earthworms, grasshoppers. And then there's George, our French skeleton.

Chemistry's interesting . . . experimenting to find out what things are made of. We've got a chemistry lab . . . Bunsen burners and flasks and balances. Chemistry is mixing and watching . . . and learning . . .

Physiology and physics are the advanced courses . . . projects and theories and laws. Science classes take advantage of all the senses . . . sight, and sound and touch, sometimes taste, often smell . . .

MR. GLENN CARLSON . . . Sioux City, Iowa . . . teaches geometry, Algebra II, and trigonometry . . . likes sports and astronomy . . . hopes to give students a better understanding of mathematics . . . senior class sponsor.

MR. JAMES DOKOS . . . Ogden, Utah . . . teaches algebra, geometry . . . enjoys athletics, gardening, photography, and doing things with his family . . . biggest accomplishment was receiving a National Science Foundation Scholarship to Utah State . . . hopes to eventually become a high school principal . . . sophomore class sponsor . . . ideal student exercises good judgment, displays restraint, practices self-discipline, and gives more than he takes . . . chose to become a teacher because he highly respected a high school coach and he felt that being a carbon copy of him would be a good idea.

Without it there would be no other professions since we are taught to do what we do. I enjoy people. Teaching offers a marvelous opportunity to serve."

Carol Rosberg learns the practical skills of operating office machines.

About the most important thing about school is preparing for a future career. Business skills are always practical and useful in many jobs.

There's a lot of courses offered in our business department . . . typing, stenography, office machines, business training.

Typing's most popular . . . it's almost a necessary skill these days for college or a job or personal use. Every now and then we're all reminded of the typing classes . . . a clattering symphony called "typing to music" is an interesting, though noisy, exercise that teaches rhythm in typing.

and foreign language . . . new skills,

MRS. DOLORES BENSON . . . Idaho . . . teaches French . . . likes travel, music, drama, language . . . has studied in Paris . . . anticipates further languoge study and world travel . . . earned her B.A. from the University of Idaho . . . sponsors French Club . . . likes working with young people, enjoys studying and learning.

Tempting buttons and knobs . . . the language lab.

"Once in your life before you die you ought to see a country where they don't talk and think in English and don't even want to."

Guess that's hard for a lot of us to do . . . travel abroad, that is. We can do the next best thing, though . . . study language. It's amazing how much you can learn about other people and places and customs just from studying their language. And it's fun, too . . . usually.

Most of us choose to learn Spanish . . . about three hundred are enrolled. We have French classes, too. And German . . . and Latin. It's a good variety.

Once a week we go to the language lab . . . earphones and knobs and buttons and tape-recorders and native speakers. The teacher can tune in either the whole class or individuals. It's part of the new audio-lingual method, learning by listening and repeating.

new ways to express ourselves . . .

Mr. Slick rehearses with Top Teens.

Strange positions for the sake of art.

we get a lot of pleasure out of it.

Guess we've all got a little creativity in us . . . even though sometimes we think it's pretty hidden. Music and art classes let us express ourselves.

"Music come into the world to give pleasure." That's true . . . we get a lot of pleasure out of it. But music is also practice and practice and frustration and rehearsals. Performances . . . butterflies, backstage chaos, curtain calls . . . and the thrill of applause and glory . . .

We have all sorts of bands and choirs, beginning, advanced . . . a place for anybody who's willing to try.

Art classes are popular . . . some of us enjoy working with our hands . . . and chalk and charcoal and paint . . . and clay and colored paper and glue and tissue paper . . . and our imagination . . .

About every girl sooner or later becomes a homemaker. Cooking and sewing . . . it's pretty basic to know about spatulas and spices . . . and facing and fashions . . . There are a couple other courses offered in homemaking . . . home design and family living.

MISS BARBARA BREDLOW . . . Milwaukee, Wisconsin . . . teaches advanced foods, beginning and advanced clothing . . . likes reading, swimming, sewing, teenagers . . . feels accomplishment when students complete projects successfully . . . hopes to tour Europe, earn a master's degree in home economics education . . . earned B.S. from University of Arizona . . . sponsors FHA . . . likes students who are anxious to learn.

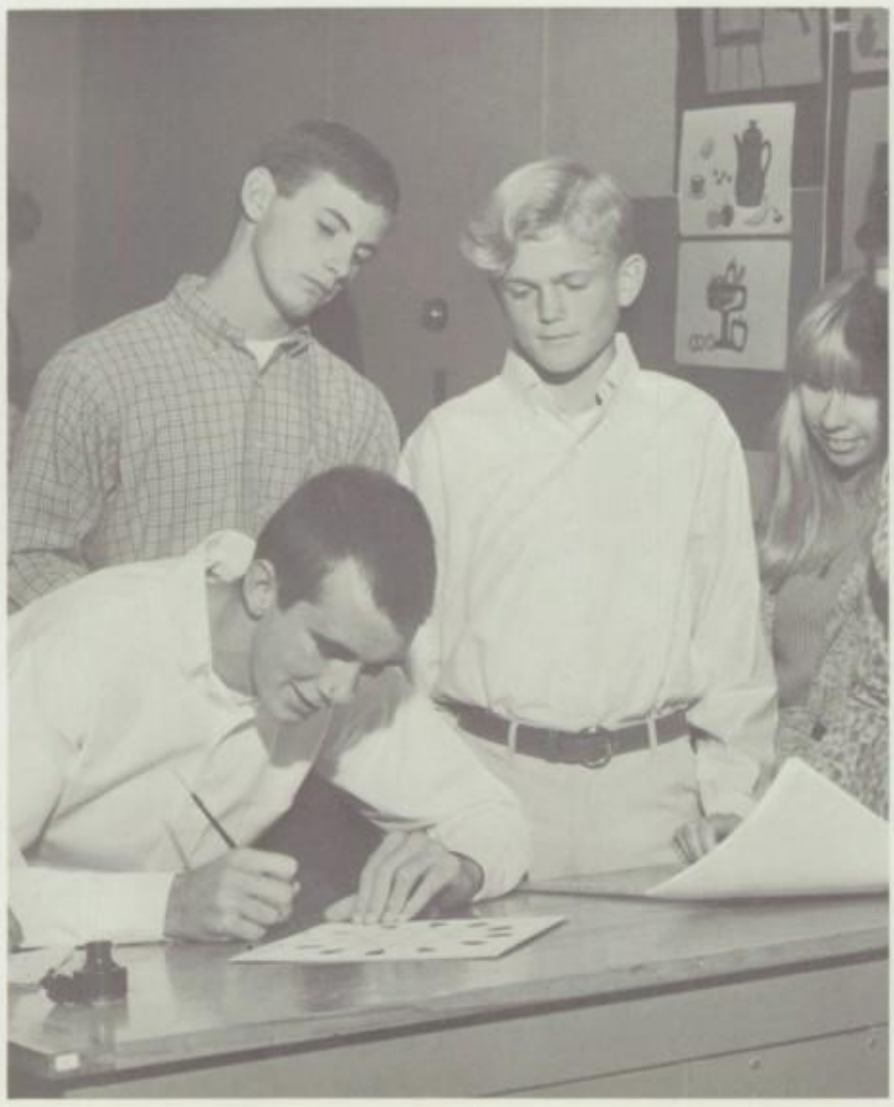
Miss Bredlow assists Sylvia Okonski with her sewing project.



We spend an hour a day exercising . . .

Our gym's out beyond the outdoor theater . . . basketball courts and field are farther north. The tennis courts are on the other side of the student parking lot.

We're all pretty familiar with those places. Everybody has physical education once a day.

Girls can choose team sports or individual sports or, on recommendation, drill team or advanced modern dance or G.A.A. It's good to have a choice . . . we play better if we're doing something we like.

Boys get a little of about all sports . . . basketball football, volleyball, track, softball . . . there's a weight room, too. And a trampoline.

Twice a year, in November and in April, by state law and district policy, we all have physical fitness tests . . . sit-ups, push-ups . . . running, throwing . . . and aching muscles . . .

MISS NANCY BLACK . . . New York . . . teaches physical education and GAA Seniors in team sports . . . likes sailing, skiing, traveling . . . hopes to get her master's degree . . . GAA and Official's Club advisor . . . ideal student is a "good listener, and active participant, one who is never absent, a good sport, a non-gum-chewer."

MRS. BARBARA CLARK . . . Los Angeles . . . teaches physical education, GAA individual sports . . . likes sewing, playing tennis . . . hopes to travel in Europe . . . Manuel Stout uses machine skills.

Alan Ahern concentrates on mechanical drawing.

or machines . . . cars or animals . . .

Not all of us manage to get out to the shops very often . . . they're out past the simulator. A lot goes on in the industrial arts classes, though . . . a lot of interesting things.

Take the woodshop for example. The boys work on projects and learn machine safety . . . and technical knowledge. Advanced students can design and build any project they choose . . . water skis, a cedar chest, a bookcase . . . or even a grandfather clock.

There's a machine shop, too. They work with shafts and flat machine steel . . . and different taps and dies and counterboards and countersinks. There's a lot of equipment — fourteen lathes, three milling machines, two shapers, a planer, and end mill . . .

In auto shop the boys work on their cars . . . practical skills. Out on the "farm" there are sheep and cattle . . . and they study and plant and fertilize and observe . . . and learn.

Mechanical drawing is planning and scaling and computing and analyzing . . . Electronics is studying and experimenting with the fundamentals of electronics and how they're used in industry.

Terry Zippwald, Danny Fenger, and Mike Kirby inspect their ag projects.

Martin Tichauer . . . the determination of a mechanic.

We learn to drive . . . it's important.

A lot of things are important in our world . . . like learning to drive. The state of California thinks it's important, too — important enough to make driver's education a required course. Guess that's a good idea. We're taught safety and attitudes . . . and rules of the road.

Behind the wheel training is optional, but encouraged. Twelve hours in a car with four other people, twelve hours in the simulator . . . that's the trailer parked by the gym . . . been there two years now. It has controls like a regular car and tests your reaction to circumstances shown on a movie screen.

Driver's education is part of a semester course — "state requirements." It's required for sophomores. Besides driving, it includes health and first aid . . . and studying narcotics and smoking . . . it's a valuable course.

MR. BURTON CRAMER . . . Iowa . . . teaches driver's training . . . likes flying . . . hopes to live to be 99 years old . . . chose teaching as a career because "knowledge is the only thing I can give away without lessening what I possess." . . . has a B.A. and an M.A. from Long Beach State College.

MR. JACK A. SMALLEY . . . Upland, California . . . teaches driver's training . . . likes guns, jeeping . . . ideal student is one who is always "all ears" . . . graduated from Arizona State College with a B.A. and an M.A.

MR. WALTER HESS . . . teaches driver's training . . . enjoys sports . . . hopes to earn his M.S. degree in education . . . ideal student can get on and off the freeway safely . . . B.S. from Western Illinois University.

MR. WARREN TERRELL . . . Cleveland, Ohio . . . co-ordinator of driver education and driver's training . . . likes swimming, wood working, gardening, traveling . . . helped develop an excellent driver's education program in which the training is available to all eligible students . . . hopes to obtain a master's degree in history, send his six children to college, and eventually teach at the university level . . . faculty sponsor of Interact Club . . . an ideal student is one who "accepts the responsibilities that accompany the privileges afforded him by a public education" . . . thinks teaching is "a challenging profession which has the richest reward — that of assisting in the development of our future voting citizens."

MR. ROY W. MEADE . . . teaches driver's training . . . enjoys athletics, fishing, hunting, . . . has his B.S. and M.S. from Kansas State College . . . hopes to become a successful teacher . . . coaches football and basketball . . . ideal student is six feet four inches tall, 215 pounds, outstanding football and basketball player . . . likes the challenge of teaching.

MR. KENNETH TRATAR . . . Chicago, Illinois . . . teaches state requirements . . . likes outdoor sports . . . would like to be a baseball coach on the college level . . . likes working with young people . . . believes ideal student is "one who is interested and who realizes how far an education can take him."

Two years have gone by now . . . two years of learning and laughing . . . and yelling and studying. They were exciting years. The juniors remember them well.

Their first year . . . Jim Reavis, class president . . . the sophomore carnival and Queen Terri Brown . . . campaigning and dominating the 65-66 cheerleading team.

And now, the second year. A lot of decisions. A lot of work. Junior testing . . . and studying the results . . . the PSAT and National Merit Test. And voting on a ring style, and measuring and ordering and waiting. . .and finally, receiving their class rings. . .it was a thrilling day.

Hundreds of steering committee meetings, thousands of hours, millions of details . . . the ingredients put into a successful prom.

And then, the close of the year. . .and campaigning and voting. . .next year is theirs. . .

JUNIORS . . . Another year gone by . . . "This is the way we were in our growing up."

SOPHOMORE STEERING COMMITTEE: Row 1: Richard Hyder, Ann Marie Bonfiglio, Susan Ormiston, Debby Perry, Sherry Dix, Liz Martin, Sharon Foster, Jo Payne, Rick Curtis, Joanne Sayama, Gordon Owens. **Row 2:** Andy Allison, Mary Clancy, Carol Ligtneberg, Nancy Evans, Joyce Simpson, Debby Boone, Robin Salling, Jim Oliver. **Row 3:** Roger Hobbs, Janice Rich, Linda Grant, Jackie Bruning, Jodi Gilmer, Fritz Walden, John Robinson. **Row 4:** Jim Kendall, Barbara Gleitsmann, Roberta Bryant, Pat Guenther, Debbie Meadows, Candy Roberts, Dianna Hamer. **Row 5:** Mr. Salio, Mrs. Johnson, Mr. Albright.

Most everything we do in life fits into a general pattern. We start. We work awhile. We finish. A lot of times it's the starting out that's most important . . . getting oriented, setting goals, plunging in . . .

It's like the sophomore class. They spent their first weeks of school getting oriented to the responsibilities . . . and the privileges of high school.

They elected officers. They selected a steering committee . . . then set their goals high. They wanted to prove to the upperclassmen that they were proud to be Panthers . . . they cheered for the spirit stick . . . they joined campus clubs . . . they studied hard. And they worked together on class projects—selling cokes at games, planning the annual sophomore carnival. . .

High school . . . a new way of life . . . exciting, awkward . . . fascinating and frustrating . . . rewarding, puzzling . . . and wonderful. . .

SOPHOMORES . . . Two years from now and Whisssh! It'll be all over. "How do such things begin?"

Sophomores . . . their first pep rally

"Aw, gee, do ya really think I'm sweet?"

HOW TO SLEEP ON A WINDY NIGHT

Years ago, the story goes, a farmer who had hired one after another inept farm hand was approached by a young lad who asked for a job. When the farmer asked him about his qualifications, he replied, "Sir, I know how to sleep on a windy night."

The farmer thought to himself that this was what all of the hands he had hired seemed to do best. But, the lad was hired.

Then one night a fearful storm arose and the farmer looked in on his new help. Sure enough ! He was sound asleep !

So the farmer drew on his storm clothes and headed for the barn. It was **securely locked** and the animals were **peaceful** and **safe** in their stalls. Only then, did he understand what the boy meant when he said he could "sleep on a windy night." The farmer knew he had a **faithful, dependable servant.**

You can put that same trust in Orange Savings and Loan Association...the oldest in Orange County and the 11th oldest in California. Here your funds are **in competent hands.**

Since 1887, Orange Savings and Loan has never failed to pay interest, on time, to all those who save here. We're not the biggest . . . but that's not our ambition. **The best interests of our savers . . . the protection of their funds and payment of the highest rate of interest consistent with sound business practices . . . are the things that concern us most.**

There's no better time than now to open your savings account. Your funds will earn daily interest at the high current annual rate, compounded daily. Funds placed by the 10th of the month earn from the 1st and your account is insured to $10,000.

Trust your funds to Orange Savings and Loan Association. Add to your account regularly. Enjoy the **safety** provided by this organization that has weathered all of the financial storms since 1887. When you've done this, **you, too, will know "How to sleep on a windy night."**

Congratulations to the Class of '66

Linda!

Yes! It sure has been fun bopping around the gym in modern dance this year! Next year you and Mike had better still be walking around hand-in-hand wherever you go! Keep the spirit! and I'll see ya next year!

Love ya,
Sue

"Thank you very much . . . we're all very much obliged to you . . ."

Linda, for being one of them! It's been a real scream having you in history. Maybe next year we will get in another class together. Have fun this summer with Mike.
Good luck.
Wayne Worden

Albert-James Photographer . . . for taking and developing nearly all of our pictures. Thanks to Ernie Hartman, Glenn Kopp, Albert Fowler, James Paino . . . and especially Don McMillin . . . for willingly going along with even our strangest ideas.

Mr. Cecil Brown of Delmar Yearbook Company . . . for guiding us in getting our book ready to print and encouraging us.

Mr. Milton Craig, our yearbook advisor . . . for his unbelievable patience and (usually) calm disposition even amid all the chaos.

Robby Strain, one of last year's photographers . . . for coming back to take several of the candids in the faculty section.

The OHS Photo Club . . . for the pictures of the Homecoming pep rally and tricycle race.

Miss Hazel Stover . . . for the gracious use of her desk in the picture on page 192. And thanks also for buying an annual!

Mr. Verrill Townsend and all the faculty . . . for their cooperation and support especially the day we took all the club pictures.

Mrs. Mary Bunger . . . for letting us borrow her sophomores to identify people in pictures.

Mrs. Mary Ann Harris and Mrs. Norma Eggers in the personnel office for their answers to thousands of questions . . .

Mr. Paul Woods, drama teacher . . . for buying the first annual! And for his enthusiasm and support. And we really are sorry about the drama club picture.

Mr. Ellery Slick . . . for letting us use some of his pictures from "West Side Story."

Dale TerBush . . . for designing our cover.

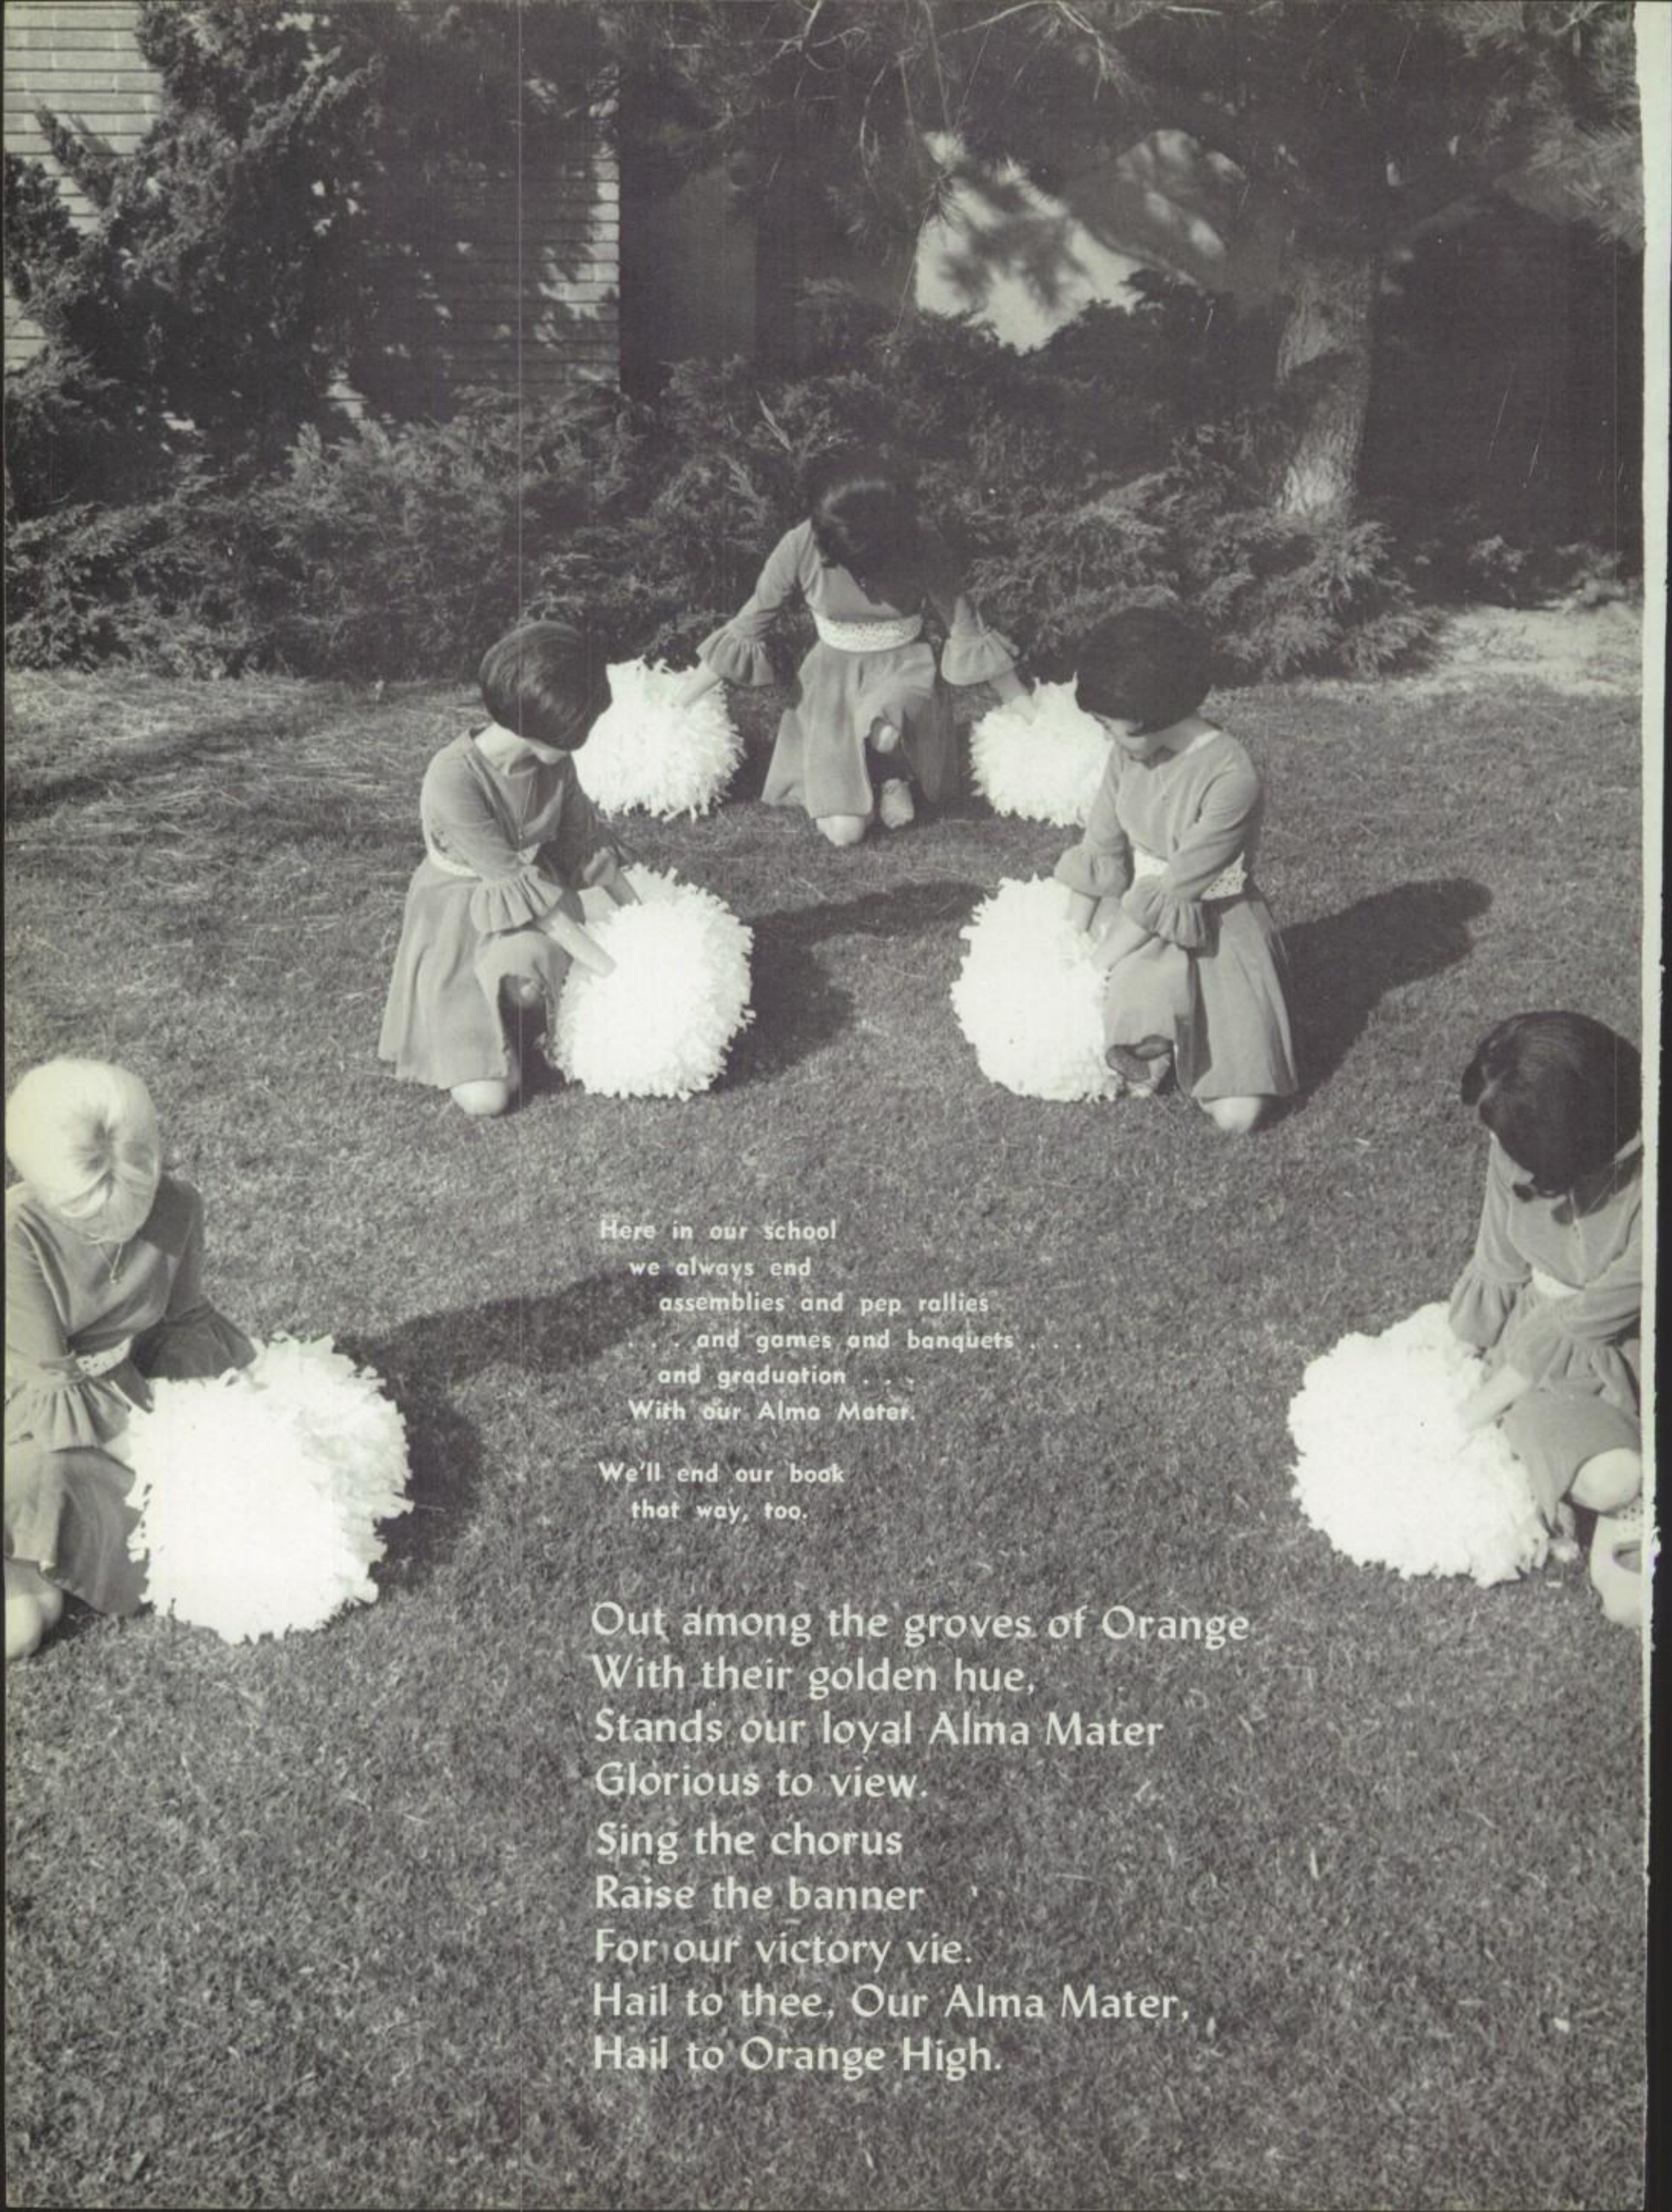
Lynn Behrens . . . for drawing the art work on page 133, 134, and 141.

Griffith Park Observatory for the galaxy picture on the prologue page.

The Orange Chamber of Commerce . . . for loaning us some pictures of the city.

Miss Alfrieda Hull . . . for her honest opinions and encouragement and assistance to the copy editor. And for her interest and concern . . .

Mrs. Helen Lane of Harper & Row, Publishers, . . . for granting us permission to use the "Our Town" theme.



Here in our school
we always end
assemblies and pep rallies
. . . and games and banquets . . .
and graduation . . .
With our Alma Mater.

We'll end our book
that way, too.

Out among the groves of Orange
With their golden hue,
Stands our loyal Alma Mater
Glorious to view.
Sing the chorus
Raise the banner
For our victory vie.
Hail to thee, Our Alma Mater,
Hail to Orange High.
